1082	53565	0140			NFWF Grant Funds Expense	i	9,000

## Description (Must be completed - Attach extra pages if needed):

The NFWF Grant provides funds to enroll 100 acres of cropland into soil health conservation systems with producers by implementing cover crops and no-till. Winnebago County will be reimbursed by Fox-Wolf Watershed Alliance for all contractual costs associated with the farmer incentives for installing soil health conservation systems along with Winnebago County LWCD being offered \$10/acre for 2 years for every acre enrolled in the NFWF Grant. This budget adjustment was done with guidance from the Finance Dept. and will provide budget revenue with no additional levy.
