Drug Court will have its next graduation on July 28th. We will be finishing up the statistics through 2015 and will be sharing those at the next meeting. The Drug Court Team has been implementing their 1 year plan that was developed at the WI Standards Training for Drug Courts. Statewide treatment courts have been looking at a data collection system called CORE to make sure all courts are collecting and tracking the same type of data. WATCP has developed a Strategic Plan that will also aid in this process.

Sstop is in its 10th year and continues to have a high referral rate. Tara Notzke case manages for the Oshkosh office and Jon Phillips case manages for the Neenah office. We currently case manage 22 out of county SSTOP participants with Outagamie County being the primary referral. Previously all Outagamie County documents were sent to their case manager to approve and then forwarded on to the courts, recently a change was made where our case managers save time in the process by sending documents directly to the court.

Teen Court has made some positive changes since coming over to the Human Services Department. The program now has participants on a treatment plan and participants have the opportunity to continue to attend all hearings until they have successfully completed the program. Teen Court now has an active attorney training that the participants and volunteers can participate in to help them better understand the legal system. The program also obtained a \$2,000 grant last year to help fund the sustainability of the program and was recently awarded the same grant for 2016. The program will be starting a Google Group in the future to allow participants to be updated on hearings, and turn in their homework and monthly reports.

The DHS Diversion program has taken off in referrals. With the program just being active for less than a year there has been 66 referrals total. There is an overwhelming response to a diversion aimed at mental health and AODA needs of the consumers. The diversion thus far has seen a handful of consumers needing behavioral health services. The DHS Diversion continues to evaluate how they can best serve the population they are seeing in referrals.
