APPROPRIATION OF \$3,000.00 FOR READJUSTMENT OF HEATING PLANT AT SUNNYVIEW

Supervisor Loescher read the following Petition, No. 3:
To the Honorable, the County Board of Supervisors of Winnebago County, Wisconsin.

Gentlemen:—Whereas, the Board of Trustees of Sunnyview Sanatorium have had under consideration the readjustment of the heating system in the Sanatorium, we beg leave to submit the following information:

We find that the heating system as at present in operation does not properly heat the building, and we also find that never since the Sanatorium was built has the heating system been satisfactory.

We have counselled with and asked the advice of several heat experts so called, and all of them thus far have been unable to suggest any relief.

The trustees as a last resort have secured the services of Joseph LaPine of Oshkosh, at present employed at Foster City, Michigan, to go over the whole heating plant at the Sanatorium and in accordance with his suggestion we have determined upon a line of procedure, viz:

To enlarge the piping of both the steam main and the return, which will involve the removal of a large part of the present piping and the installation of larger pipe lines.

We regard the repair of the heating system as absolutely imperative and it should be done during the summer months so as to be prepared for the winter season.

It is only fair to you to say that in years past, whenever the advice and suggestion of Mr. LaPine has been sought in matters of this kind by the Trustees and Superintendents of our County Institutions, that it has always proved reliable.

In view of facts as above stated, we respectfully petition your Honorable Body for an appropriation of \$3,000.00 (Three Thousand Dollars), to defray the expense of the work as above outlined with the understanding that any amount of said appropriation not actually and necessarily used for this specific purpose, is to be turned back into the proper fund of the County Treasury. Oshkosh, Wis., May 3rd, 1921.

W. W. NOBLE,
WM. FABER,
L. J. PINKERTON,
Trustees.

On motion referred to the Committee on Sanatorium.

Your Committee beg leave to report that they are not ready at this time to recommend the change and desire more time to investigate the conditions that will enter into the change.

Your Committee would like the Honorable Board at this time to give them authority to make the change if after a thorough investigation the Committee finds that the change in the roads would be of greater benefit to the traveling public and the residents in the vicinity of same. Be it resolved, by the Board of Supervisors of Winnebago county, that the County Judge of Winnebago County be and he is hereby authorized to employ such additional clerical assistance for the purpose of compiling from the records of the Probate Court of said county a list of such guardianships, estates, trusteeships and other proceedings in which the records are incomplete and in which accounting or other proceedings are required; that such assistance be employed not to exceed four months and at a total expense of not more than Five Hundred Dollars (\$500.00).

Be it further resolved, that there be and there hereby is, the sum of Five Hundred Dollars (\$500.00) appropriated for the purpose of paying additional help in the Probate office and that the same be paid out by the County Treasurer upon orders of the County Judge of Winnebago county.

APPROPRIATION FOR THE WISCONSIN POULTRY ASSOCIATION

Supervisor Macke offered the following Resolution No. 5.

To the Honorable, the County Board of Supervisors of Winnebago County, Wisconsin:

Gentlemen: Whereas a poultry show as put on and conducted by any regular and well-governed poultry association, is of lasting benefit to the community in which it is held. The pure bred poultry that are exhibited and lectured about, cannot but help to cause the onlooker to wonder at the marvelous progress that has been made in developing the primitive jungle fowl to its present degree of perfection. All this has been done by pioneers in the field of poultrydom, and at their own expense of time and money. The wondrous beauty that can be combined with utility, makes one marvel at the progress of science.

And Whereas, Section 59.86 of the Wisconsin Statutes provides that "The County Board of any county having a population of 30,000 or more, by the last federal census, may vote an amount not exceeding \$10,000 in the aggregate, for all societies in the county, in any one year, to aid any organized agricultural society or any incorporated poultry association in its preparation for, or conduct of its public exhibitions, and any amount so voted shall be paid, upon demand by the county treasurer to the treasurer of such society, who shall keep an accurate record of the expenditures thereof, by such society, and file a verified copy of such record with the county clerk within one year."

Therefore, be it resolved, that this, the County Board of Supervisors of Winnebago County, does hereby vote an appropriation to the aforesaid Wisconsin State Poultry association, in the sum of Seven Hundred and Fifty Dollars (\$750) for the promotion of a poultry exhibition to be given beginning February 1, 1922.

Dated this 17th day of November, 1921.

GEO. H. MACKE.

On motion made a special order of business at 10 o'clock Friday, November 18.

PETITION TO AID POULTRY EXHIBITS

Supervisor Loescher offered the following petition and accompanying Resolution No. 6.

To the Honorable, the County Board of Winnebago County:

Gentlemen: January 19 to 22, inclusive, the Winnebago Poultry and Pet Stock Association of Neenah and Menasha will hold their first poultry show at the Company I, Armory at Neenah.

The state law provides:

5986. The County Board of any county having a population of 30,000 or more by the last federal census, may vote an amount not exceeding \$10,000 in the aggregate for all societies in the county in any one year, to aid in the purchase of, or to make improvements for any organized agricultural society or to aid any incorporated poultry association in its preparation for, or conduct of its public exhibitions, and any amount so voted shall be paid upon demand by the County Treasurer

In order that we may put on this exhibition with credit to the twin cities and Winnebago county, we earnestly solicit an appropriation from your honorable body, in such amount that you in your judgment believes the enterprise justifies.

We contemplate having approximately 1,200 to 1,500 birds on exhibition at our show at an approximate cost of 50c per bird.

You no doubt appreciate that these poultry shows are prime factors in the introduction of pure bred poultry on the farms and back lots of Winnebago county. Pure bred in poultry means the same as it does when applied to other live stock.

In 1920 poultry and its products in the United States aggregated more than a billion and a quarter dollars. Wisconsin is one of the leading poultry producing states and it is our utmost desire to continue this work, but we must have financial aid from the county as provided by law. Our committee will appear before your honorable board during the week of November 4 to ask an appropriation for carrying out this meritorious work.

It is our intention and determination to put forth our very best endeavors to make Winnebago county the leading county of the state in the poultry industry.

Yours very truly,

DR. F. M. CORRY
 B. H. METTERNICH
 HON. MAYOR E. C. ARNEMANN
 PETER BORENZ
 E. E. LAMPERT
 H C. JASPERSON

Committee.

POULTRY SHOW

To the Honorable, the County Board of Winnebago County:

Gentlemen: Be it resolved that the sum of \$750 be and the same is hereby appropriated for the purpose of holding a poultry show January 19-22 at Neenah-Menasha Armory; be it further resolved that the foregoing sum be taken from the general fund, on order drawn by the Chairman of the County Board—and paid to the Committee of the Neenah-Menasha Poultry Association. Respectfully submitted,

G. A. LOESCHER.

On motion made a special order of business at 10 o'clock Friday, November 18.

Mr. Arthur Laabs, secretary of the Wisconsin Poultry Association, addressed the Board in behalf of said association.

Remarks by Supervisors Schroeder, Parker, Schrage and Schoetz.

**SUPERVISOR LOESCHER OFFERED THE FOLLOWING
REPORT NO. 20**

Oshkosh, Wis., October 20, 1921.

Gentlemen: In November, 1920, steps were taken to interest the counties of Green Lake, Waushara and Waupaca in the Winnebago County Sunnyview Sanatorium located four and a half miles north of Oshkosh.

Sunny View Sanatorium has now been in operation for six years and has just closed its most successful year since its dedication.

A committee appointed by the county board of Winnebago county and working in conjunction with the trustees of Sunny View Sanatorium has met and conferred with representatives of Green Lake, Waushara and Waupaca counties and representatives from these counties have visited Sunny View Sanatorium and will no doubt make a report of their visit to the County Boards of their respective counties at the coming November Session

In accordance with the reference had at different times with the committees from these counties we are submitting figures which may form a basis upon which your County Board would be willing to enter into an agreement for the joint ownership and operation of Sunny View Sanatorium in conjunction with either one or two of the counties above named. Sunny View Sanatorium, its equipment and the five-acre tract of real estate in connection therewith owned by Winnebago County is valued at approximately One Hundred Fifty Thousand Dollars. The law provides that counties may join in the ownership, operation and maintenance of tuberculosis sanatoriums and Chapter 250, Laws of 1921, authorizes any county or counties maintaining a tuberculosis sanatorium to convey an interest therein to any other county or counties, and tuberculosis sanatoriums owned by two or more counties jointly are to pay for the same and the maintenance thereof in proportion to their equalized valuations as fixed by the state.

The 1920 equalized valuation of Winnebago, Waupaca, Waushara and Green Lake Counties is as follows:

Winnebago county	\$97,728,267
Waupaca county	53,915,986
Waushara county	24,883,880
Green Lake county	32,623,794

It is conceded that Winnebago county would have some advantage over the other counties by having the sanatorium located within its borders and considering this advantage coming to it, for the purpose of joining with other counties in the ownership, maintenance and operation of its sanatorium, it would be willing to place a valuation on its sanatorium property at One Hundred Thousand Dollars and on this basis we have attached hereto schedules showing the percentages and amounts which each county should pay in the event that arrangements are finally consummated for joint ownership. These schedules explain themselves. Schedule Number I is figured on the basis of Waupaca, Waushara and Green Lake counties joining with Winnebago county; Schedule No. II on the basis of Waushara and Green Lake counties joining with Winnebago county; Schedule Number III on the basis of Green Lake and Waupaca counties joining with Winnebago county; and Schedule Number IV on the basis of Waupaca and Waushara Counties joining with Winnebago county.

It is our desire to have Waupaca, Waushara and Green Lake counties join with Winnebago county in this matter. "In union there is strength, and in co-operation there is efficiency."

The arrangement of details in the event of a union of interests in this matter would be very simple. Each county would have one trustee and the expenses of maintenance would be paid monthly, each county, however, paying the statutory weekly rate for its patients. Each county would be given an equal opportunity to bring its patients to the sanatorium.

We think it is only fair, however, to say that those most closely associated with the sanatorium and familiar with its needs and future requirements for efficiency are of the opinion that a nurses' home and a home for a

resident physician should be provided in the near future. This would probably involve an expenditure of Forty Thousand Dollars, more or less, but the sanatorium would then be in a position to take care of many more patients than at present

If for any reason any county deciding to join in this matter should find that it could not pay its proportionate amount at this time without burdening itself it would be agreeable to Winnebago county to divide this amount into payments and make the payments due in equal installments covering a period of years. In this way each county could immediately begin to participate in the benefits of the institution without a large outlay at once. Winnebago county believes that a combination of efforts would redound to the mutual benefit of all concerned.

The care and treatment of tuberculosis people is not a direct money-making proposition, but is a humanitarian matter in all its aspects. Tuberculosis in its early stages can be cured and the ravaging effects of tuberculosis stopped. The problem of combating tuberculosis is in its beginning and we are passing an evolutionary period in our effort to cope with it, but splendid work is being done and we trust that your county will see its way clear to unite with us in this matter.

REPORT OF THE WINNEBAGO COUNTY TRAVELING LIBRARY

November, 1921

Miss Edith K. Van Eman offered the following Report No. 21.

To the Board of Supervisors of Winnebago County, Wisconsin:

Gentlemen: Twenty years ago Winnebago county organized its Traveling Library under the provisions of the law according to which it is still operating at the present time. It was one of the first counties in Wisconsin to operate a traveling library and also one of the pioneer county systems in the county. Today there are also Langlade county and Milwaukee county and this year Wausau received an appropriation of \$500 for county service.

In twenty years library methods have materially changed and progressed and the county library law of Wisconsin has been amended several times. In the last year an amendment allowing great freedom of development was passed by the legislature.

When the Winnebago County Traveling Library began serving the county in 1901 there were 1,485 books in 27 libraries, or collections, which brought a circulation of 4,654 in the first year. Later reports show a smaller issue of books. In 1905 Winnebago county led in the state of Wisconsin in the number of stations in its county system and in circulation of books, according to a statement in the report for that year. However, the Langlade county system was not established until 1909 and the Milwaukee system not until 1913 through special legislation for that county. In 1911 the book collection had grown from 1,485 to 2,314 books, a net gain of 829 or for each year of its life, 8 books. In 1921 the collection had increased to 3,049 books, a gain of 1,564 in 20 years. The number of stations has increased to 40, the number of libraries from 27 to 54, the circulation from 4,654 to 6,055.

According to the 1920 census the population of Winnebago county is 63,897. There are three city libraries in the county, Neenah, Menasha and Oshkosh, serving a combined population of 47,547, leaving a population of 16,350 in the county for which library privileges are provided only through the county Traveling Library of 3,049 volumes. 595 of the residents of the county hold cards in the Oshkosh Public Library and 172 in the Neenah Public Library. Menasha has kept no record of the number of borrowers residing outside of the city and there is no way of estimating the number of requests for service which are sent to the State Traveling Library from Winnebago county.

The three cities thus extend library privileges to residents of the county in spite of the fact that the county in no way contributes to their support and is thus not entitled to library service. We think that this number of county borrowers is an indication of a demand for modern library service which would extend throughout the county. We urgently request your consideration of the suggestions made in this report and your interest in awarding the subject of county library service full discussion.

RE-LOCATE STATE TRUNK HIGHWAY NO. 95

Supervisor White offered the following Resolution No. 7:

Resolved, by the Board of Supervisors of Winnebago County, Wisconsin:

That it is the sense of this board that for the purpose of avoiding the expense incident to building parallel concrete roads and for the purpose of giving better service to the traveling public and to the localities affected that State Trunk Highway No. 95 should be changed and relocated to provide that instead of running from the Winchester-Zittau road northwesterly at a point in Section Fourteen (14) Town of Winchester, and thence to the Village of Readfield in Waupaca county, that said highway should continue directly west from Winchester, thence northwesterly to Zittau and thence northwesterly to the Waupaca-Winnebago county line following the road known as the Winchester-Zittau-Fremont road.

Resolved further, that the board petition the State Highway Commission forthwith to hold a hearing and pass upon said proposed change and that the County Clerk be and he is hereby directed to send to the State Highway Commission the attached petition and a copy of this resolution.

Dated November 18, 1921.

M. F. WHITE.

Remarks by Mr. Raddatz, chairman of the Road and Bridge Committee Motion to suspend the rules and adopt resolution. Carried.

To the State Highway Commission of the State of Wisconsin:

Gentlemen: The undersigned County Board of Winnebago and state of Wisconsin respectfully petitions as follows:

Your petitioners pray that State Trunk Highway No. 95, between the Village of Winchester, Winnebago county, and the Village of Readfield, Waupaca County, Wisconsin, and more particularly where said highway leaves the Winchester-Zittau road in Section Fourteen (14) Town of Winchester, and running northwesterly to the said Village of Readfield, be changed to provide that said highway 95 shall run directly west from the village of Winchester in the town of Winchester, said county, following the so-called Fremont road westerly through the town of Winchester to the Village of Zittau, thence westerly and northwesterly on the Winchester-Zittau-Fremont road to the county line between Winnebago county and Waupaca county.

Your petitioner believes that the granting of said petition will avoid building parallel concrete roads in the same locality and thereby save the expense of one concrete road and that the route 95 as herein asked to be amended will give the traveling public and the people of the locality effected better service.

Your peptitioners ask that hearing be held and action taken on this petition at the earliest convenient date.

Respectfully submitted,

THE COUNTY BOARD OF WINNEBAGO COUNTY.

Were it not for education and our civilization, which it has taken thousands of years to develop, would die out within a few generations. It is by means of education that our civilization is passed on without loss from one generation to another. The laws of all civilized nations require that whether an individual wants an education or not the nation requires that he shall have it for the defense of its own rights and liberties. One can live without an education, or a good many people would be in their graves. One can earn a living and attain some success; but it is not necessary for me to argue that we can not live our lives to the best advantage nor have a real democracy without the knowledge which has been developed by the ages preceding us.

The early pioneer provided first for food, clothing and shelter and then, even in the midst of his poverty, he provided for the public school. Since that early time free public education has been one of our ideals. Russia and Mexico are illustrations of great peoples inhabiting countries with wonderful natural resources, but which have failed to make progress because of the lack of education. Today the public schools in most communities are the most important government activity. In Winnebago county the cost of maintaining the rural schools, about \$200,000 a year, is second only to the cost of new roads.

Improvements

During the past year many improvements in buildings and equipment have been made in the rural schools of Winnebago county. A number of

schools have been remodeled, playground equipment has been provided. improved teaching equipment has been secured and in the Vining school district of the town of Neenah a modern rural school building has been erected containing all of the latest improvements as found in the best schools of today.

Present Schools Unsatisfactory

In spite of these facts, however, there are in this county many school buildings without proper lighting, heating and ventilation or space in which to carry on school work to the best advantage. The teacher not only has all grades and from twenty-five to thirty classes a day with by ten or fifteen minute periods, poor and insufficient equipment and little supervision, but she must be janitor as well. There is a growing spirit of dissatisfaction with the education such schools can offer. Little wonder that many of the best teachers are constantly being withdrawn to positions in towns and cities where such effort is not required and that many parents are moving to town or sending their children there to school. No great improvement can take place in the rural schools under the present system of one room buildings. We are using the ox-cart type of organization in an automobile age. The ox-cart and the rural school never can catch up but must be discarded before real progress can be made.

Advantages of Consolidated Schools

The consolidation school is proving to be the solution of this problem in many communities in various parts of the United States. Under this plan eight or ten schools of a township are combined into a centralized school and transportation is provided for the pupils. Such schools are being carried on with success in new countries where there are poor roads and long distances to travel. With the comparatively good roads and shorter distances in Winnebago county there is an even better opportunity for the success of this plan. With such a school there would be better housing, better teachers could be secured, there would be longer recitation periods, opportunity for the study of music and agriculture, a real community center and the class rivalry that is so valuable in stimulating pupils.

City High Schools Not Adapted

Between eighty and ninety per cent of the graduates of the rural schools of this county attend high schools all of which are located in villages or cities. Pupils attending these schools must drive long distances or board in town. It is decidedly unfortunate for parents to have to send a boy or girl away from home influences at the age of 13 or 14 just when they are awakening to the greater facts of life. In some cases it has meant the development of wrong interests and points of view. At the best, such pupils are made to feel that their home life on the farm is uninteresting and vulgar.

The question I bring to you is, "What father or mother in a rural community would not welcome the opportunity to have a child secure a high school education without the hardship or dangers suggested above?" Rural high schools with courses of study specially planned for rural life and with the teachers with sympathetic interest for farm life are possible and rural communities are going to demand them in the near future.

May Soon Be Closed to Rural Pupils

Not only are the city high schools poorly adapted to give the type of education needed by farm boys, but even the opportunity for this training is in danger. The high schools of the cities in this county are becoming so overcrowded that it will be necessary within a year or two to deny admission to rural pupils or to make extensive additions to the high school buildings. As these conditions become more acute, we can not but expect that the cities will feel that they have all they can do to take care of their own students. We stand in imminent danger of having these schools closed to us at a moment's notice. For these reasons I believe it is imperative that we begin to make plans to take care of the rural pupils in rural

high schools which can be planned and developed to specially meet their needs.

Cost of Consolidated Schools

The question of financing consolidated schools is one of importance. Statistics show that until recent years the costs have been about the same as for our present schools. During the past few years the costs of consolidated schools have somewhat increased, though not in an unreasonable proportion. It is only to be expected that a much better type of school will cost more money. Recent figures from such school districts show that the costs are not unreasonable where the districts are laid out with sufficient area and a sufficient valuation. In Indiana, Iowa and Ohio, many rural schools have been consolidated and there is yet to be recorded a single instance in which a consolidated district has become dissatisfied and voted to return to the former one room schools.

92 Per Cent for War

There is a growing feeling that the state and nation should foster the development of rural consolidated elementary and high schools. At the present time 92 per cent of the entire revenue collected by federal government is spent in payment for war purposes and only 1% of the revenue has been spent for education. If the conference of nations now being held at Washington on the limitation of armaments is successful it is quite certain that much larger appropriations will be made for education, good roads and other internal improvements. It is likely that in the near future important action will be taken by congress to improve the educational opportunities of rural districts. In the meantime I believe that it is vital that we begin to discuss this matter and to make plans for future development.

Truancy—Illiteracy

The question of school attendance is an important one. Pupils of all ages are kept out of school to work for their parents or neighbors, because of indifference to the advantages of an education. The lost opportunity due to absence from school is enormous in Winnebago county. Statistics furnished by the state superintendents show that there are 1200 illiterates in Winnebago county, that is, people over ten years of age who can not read nor write in any language. During the war we were astonished to find thousands of drafted men who could not read or write the simplest English. In the German army there was only one illiterate in every 10,000 soldiers, while in our army the percentage was almost a hundred times as great. The difference is due to the fact that in Germany compulsory school attendance is rigidly enforced while in this country regular school attendance is the exception rather than the rule. There is a good deal of nonsense about the divine right of parents to have their children grow up in ignorance. There is dire necessity for the enactment of laws providing for the more rigid enforcement of compulsory attendance. The last session of the legislature gave serious consideration to the appointment of a county attendance officer whose entire duty would be to keep children in school. Strong support will be given to the passage of such a bill at the next session of the legislature.

Under Age Pupils

One of the biggest problems of the rural school is the small child who comes to school in the fall, drops out in the winter and comes again in the spring. This year we are trying to have these first grade pupils attend regularly during the winter with the exception of very severe days and to have the parents assist the children at home when they are unable to come to school.

There is a curious tendency on the part of a considerable number of parents to send four and five-year-old children to school. Some really intelligent people seem to feel that it is the duty of the school to take care of these little people who are really not fit for the nursery. It is unfair not only to the school, but especially to the child who is sent to school at such an age. Not being mature enough to do regular school work, he

gets into habits of idleness. A year or two later when he is old enough to do regular school work it is decidedly difficult to overcome his earlier habits and to make him realize that school is a place for work. It is a real tragedy to such a child to be shut up in a schoolroom at a time when his muscles crave activity for their development. Both physically and mentally it is unwise to send such children to school and the law should be so changed that school officers or teachers may have the legal right to deny such children admission to school.

School Board Convention

There is probably no one influence that does more in bringing school officers and teachers to a harmonious understanding of the needs of the schools and of the best means of progress than the school board conventions which are held each year and attended by school officers and teachers. At the convention this year held October 24 and attended by about 300 people there were discussions of many problems concerning the schools. State Superintendent John Callahan, Walter Larson, formerly with the state department and George Dick of the state department all discussed problems relating to the rural schools. Opportunity was extended for the asking of questions which were answered by a member of the state department. Altogether, the program was well adapted to the needs of the rural school officers and teachers.

For Better Health

During the past year a great deal of effort has been made to emphasize good health in the rural schools. The county nurse made visits to each rural school and conducted classes in the high schools. Practically all of the pupils attending school were given an examination and in many cases physical defects were discovered which were unknown to the children or their parents. A note was taken to the parents in each case advising that the child be taken to a doctor and proper treatment received. It is impossible to over-estimate the promotion of good health that this work has brought about. Many physical defects have been corrected which, because of their present unimportance, would not have been likely to attract attention until they had become so acute as to be difficult of cure.

Cho-Cho—Health Clown

The Child Health Organization of New York City has, during the past few years, been doing a great deal to familiarize parents with the necessity of caring for the health of children. This organization has a number of representatives who are especially trained to interest children and their parents in good health. Their most widely known representative is Cho-Cho, the Health Clown, who has become known to the school children all over America. We were fortunate this spring in being able to secure this celebrated clown to give a performance at the county commencement exercises where he held the intense interest of not only the children, but also their parents during his performance. The cost of his appearance was borne by the Junior Red Cross of the county.

New Movements

During the present year we are attempting to put into force in the rural schools several of the most widely accepted and progressive methods of teaching. These include exercises in silent reading which emphasize the thought of what is read; the socialized recitation in which the children take the initiative and secure the great values of carrying on the recitation; the project problem method of studying subjects such as geography and agriculture, in which the pupils study a particular problem and try to solve it rather than to merely memorize the facts given.

Science

Our regular course of study provides little or no time for the teacher to give rural pupils any knowledge of the great facts of science. This year we are securing some excellent books on this general subject and are planning to have some simple experiments performed to show the wonders of

mchanics, heat, sound, etc. We believe that through interest in this subject some of the larger boys can be kept in school who would otherwise drop out as soon as possible.

Plan Books

For several years I have been trying to find some system of plan books in which teachers could outline thier work in advance and in this way have it well arranged and definite. This year we have adopted plan books in which each teacher is outlining her work a week in advance. It may be that our present system is not the one best adapted for its purpose, but so far the results seem to be very satisfactory and I feel that it has been worth the effort.

Reading Circle Work

Every well informed person knows that anyone who does considerable reading will by this means acquire a general knowledge which it is difficult to get in any other way. For this reason encouragement has been given to library reading work. Special cards have been provided on which teachers may report the books read by their pupils and the certificates or seals to which they are entitled. This seems to be stimulating a very gratifying interest in reading circle work.

Salaries

A little more than a year ago, in response to what seemed to be a nation-wide demand, the salaries of teachers the country over were considerably increased. The situation was not different in Winnebago county, where increases of from 30 to 60 per cent were made. As a result, many of the more capable teachers remained in their schools and quite a number of former teachers were induced to return. This has relieved the scarcity of teachers to a considerable extent, although we were still unable to secure enough teachers for the rural schools in this county. The higher salaries being paid are inducing capable high school people to look forward to teaching as something worth while. As a result, the training schools and normal schools have a greatly increased attendance this year and the probabilities are that within a year or two it will not be necessary for any school to engage an untrained or incapable teacher

County Library

The traveling libraries which have been provided for this county for many years have undoubtedly been of great service. Fifty or more such collections have been distributed to the various parts of the county. The time has come, however, when people wish to secure definite reading material on subjects in which they are interested rather merely general reading. There is a big contract between the reading opportunity of the 25,000 people in the rural district who have the use of these few hundred copies and the people in the cities who have many thousands ready for their use.

I understand that the library board of the city of Oshkosh is ready to throw open its splendid library with thousands of volumes for the use of residents of the county if the county is willing to bear the proportionately small expense of the increased cost of librarian service. There is no question but that the library opportunities of the people in the rural communities are decidedly poor and that the city is making an unusually liberal offer of the use of its books which the county should not fail to take advantage of for the benefit of the rural people.

Supervision

One of the most important duties of this office is the improvement of teaching methods in the schools. This is done by means of visits to the schools and consultations followed by letters summarizing suggested changes. Frequent teachers' meetings, circular letters and outlines and the reading of at least two professional books dealing with methods of teaching are the principal means by which we have attempted to train the teachers in service and to improve the general character of the work in the schools. I wish to say that as a whole the response of the teachers

has been excellent and the improvement made during the past year has been decidedly worth while. The effect of this work is, of course, greatly lessened by the large percentage of new teachers we have each year.

Teachers' Meetings

Last year the supervising teacher developed a new plan of assisting the teachers in improving their work. The teachers of a township closed their schools and gathered for the day at one of the schools where they observed the regular work of the school in the forenoon. In the p. m. they talked over the work they had seen and the methods by which they were teaching, exchanged plans, samples of seat work and other materials and discussed many of their common problems. Thirteen such meetings were held by the supervising teacher. The teachers of the county were enthusiastic in their appreciation of the value of these meetings. For this reason we are planning to begin a series of similar meetings again, the first of which will be held next week.

Supervising Teacher

The experiment which was started six years ago of providing supervising teachers for the rural schools of the various counties at the expense of the state has passed the experimental state and is now recognized as a splendid thing for the rural schools of the state. No one seems to have any criticism for the law and there is a great deal of commendation. For the present year we have as our supervising teacher, Mr. A. G. Meating of Appleton, for many years superintendent of schools in Outagamie county. Mr. Meating is familiar with the best movements for improvement in rural education and I feel that we were fortunate to secure his services.

The last legislature repealed the former Teachers' Insurance and Retirement fund law and provided a new one under which all teachers 25 years of age or more must contribute to the retirement fund 5 per cent of their salaries, which they may withdraw with interest and with an amount somewhat larger contributed by the state at the age of 50 years. This law does not tax the great majority of rural teachers who are too young to come under its provisions and who would not be likely to teach long enough to secure its benefits. It does, however, take care of all teachers who remain in service and is a great encouragement toward that end. I feel that the new law is a great step forward in retaining capable teachers and protecting them against want when they become unfit for further service.

No Economy in Poor Equipment

It is surprising to note the contrast between the ways in which different districts care for their school buildings and equipment. In one district we find a school where the needs of the children and teacher have been given careful consideration and provided for and where the school is securing excellent results. In the next community we may find a school where the teacher is being paid about the same salary but where the school officers feel that they can save money by not being too ready to keep up the building and to furnish globes, maps and other needed equipment. In reality the second district is a bad business investment. After making the initial and greatest expenditure for teacher and fuel the district fails to make the few additional expenditures which would make the school really efficient. As a result of their shortsightedness, they are not getting the worth of the money that they do spend. Better no school at all and the children sent away than a school in the district which is indifferently provided for. The extra expense and care is really comparatively little in contrast with the greater efficiency where the school building and equipment is kept up to standard.

Throughout the state there seems to be a growing conviction that rural schools under the present form of organization will never be much better and that the centralized or consolidated school offers the only effective solution of the problem.

Respectfully submitted,

REGINALD E. SANDERS.

ANNUAL REPORT OF THE COUNTY AGRICULTURAL AGENT—NO. 39

Winnebago County, Wisconsin,

For the year Nov. 1, 1920, to Oct 31, 1921.

I. Livestock Projects.

1. Pure bred sires crowd out grades and scrubs.

During the year the number of grades of grades or scrub bulls in Winnebago County was reduced from 854 to 770, and the number of Pure Bred Sires increased from 645 to 777. Now, we have over half the sires Pure Bred. This increase of 132 Pure Bred Sires may not all be due directly to the influence of your County Agricultural Agent, or the farmers working with him on this project. If not, it is notable that before your County Agent began to urge the use of Pure Bred sires, three years ago, there were only 329 in the county out of 1257 bulls in source, or barely one of every four. It is notable that in these three years that your County Agricultural Agent carried on the Pure Bred Sire project in co-operation with the Breeders Associations, the increase of 448 in the number of Pure Bred sires is greater than the original number. It is an increase of 136 per cent. The proportion of all sires pure bred has risen from 27 per cent to over 50 per cent.

2. Boys' and Girls' Clubwork.

This project also was carried over from previous years, but on account of financial conditions largely, not as large an enrollment was secured as in 1920. About 50 boys and girls carried on a calf or pig raising project as compared with 100 the year previous. All animals in these projects of course were pure bred. Many of these were shown at the county fair, where the fair authorities had provided liberal prizes. Five of the best calves were sent to the state fair with the financial help of the Oshkosh Association of Commerce and made a very creditable showing for the county, taking several prizes near the top in the calf club

classes. Much credit for this work is due to the work and co-operation of the agricultural instructors in the high schools at Oshkosh, Omro and Neenah, T. G. Brown, L. Sasman and L. B. Trevel, respectively.

A summary of the club work carried on under supervision of your County Agricultural Agent since the office was established shows that over 300 boys and girls have raised calves or pigs for themselves, and most of these pure bred animals; in so doing they received direct instruction and training in the best known methods, as well as practice in business principles by keeping feed and cost records.

3. Marketing Dairy Cattle.

On account of the depressed price of milk and stringent financial conditions in the west and southwest, surplus dairy cattle could not be sold readily to outside buyers. During the summer and fall, however, the market improved and a number of buyers were brought to the county.

These took some 134 head and left \$10,640 in the county. In addition your county agent helped arrange and hold the first annual consignment sale of pure bred Holsteins, when 56 head were sold for \$11,000, making the total sales \$21,640.

During the four years this office has been in existence, it has helped sell over \$160,000 worth of dairy cattle or over \$40,000 worth a year; besides helping buy over \$50,000 worth of pure bred cattle. As the customary charge in public sales is 10 per cent or more, to have sold these cattle in the ring would have cost our farmers \$16,000, an average of \$4,000 a year. Furthermore, these outside buyers have paid more money than local sales would have brought and this has tended to raise the average price for good dairy cows.

I feel that with the increasing use of pure bred sires and with the help of this office and the Breeders Association, Winnebago county is on the eve of building up a great industry in the sale of surplus dairy cattle,

1. Alfalfa.

Although no intensive campaign was carried on this year to get more of this best milk producing hay raised in the county, a number of farm meetings were addressed on this subject by your agricultural agent, and a great number of individual farmers came to him for advice on the raising and handling of the crop.

The average increased from 1833 to 2256 or about 420 acres this year.

Prior to 1917, when you first started the agricultural agent office, there was less than 400 acres grown all told in the whole county. "More alfalfa" was one of the first projects investigated and boosted. It was hard sledding at first, because so many farmers had had bad luck, largely on account of the crop being new and not well understood. But after a series of meetings with an alfalfa specialist two years ago, the acreage in alfalfa jumped right up and we have been raising it successfully ever since. Farmers learned its peculiarities and limitations, as well as its advantages and that's what this office is largely for; to spread such information.

This increased alfalfa growing of over 1800 acres, can be credited largely to the campaign and propaganda by this office. This alfalfa is yielding at least a ton more hay per acre and better hay than clover. That makes at least \$36,000 worth more feed a year valuing the alfalfa at \$20 a ton, more than clover on the same acreage.

2. Soybeans.

Twenty variety trials of soybeans were carried on during 1921 on that many different farms, for adaptability with corn for silage. Demonstration field meetings were held on eight farms, with a total attendance of 171. The early varieties under observation are early black and early brown, on many of the plots, except on rich low land, grew hardly tall enough for the corn binder. Next in maturity was the Ito San, which made a fairly satisfactory growth except on light soil or on dry clay knolls. Manchus were nearly as early and made a bigger growth, but did not seem

to stand up so well. Medium Greens were nearly three feet high and a little later. Three late varieties were Mammoth Yellows; Holly Brook and Johnson's Twining Vine. The latter is much advertised for its immense twining growth from four to seven feet, but it twines mostly on the ground instead of the cornstalks. Mammoth Yellows, used most commonly the last. When buyers come back to us for the ninth and tenth consecutive time and state publicly that it is because of the treatment and service they get here, this office must have established some pretty steady customers. We now have an acquaintanceship with prospective buyers that probably enables us to do business of this kind for farmers whenever any can be done. We are confidently looking forward to bring from fifty to hundred thousand dollars into the county every year from this source.

4. Poultry Work

Seven Poultry culling demonstrations were held last November with Mr. Hayes, the poultry specialist from the Agricultural College. About 60 people were at these demonstrations and not only saw how the good layers are picked from the pure ones, but also learned to do it by practicing it themselves then and there. Several of the flocks from which fully one-third of the hens were taken out as poor layers were afterwards reported as producing just as many eggs without having the boarders to feed.

5. Cow Testing Associations.

One new Cow Testing Association was formed during the year, and work started May 1. This is the Oshkosh association, comprised mainly of Guernsey herds in the central part of the county. On the other hand one of the two associations running previously deemed it advisable to disband, on account of keeping the membership too widely scattered. But there are indications of it being organized again this winter. The Wolf River association started in 1920 with the help of your agricultural agent, is now nearing completion of two years' testing with splendid results. Many of the members will average one hundred lbs. of butter fat and several thousand pounds of milk per cow per year more than the first year; and they did better then already than they had ever done before they tested. On this basis the fifty or more members in the two associations must be making from 15 to 30 thousand dollars a year more than they did before testing, due in large part to this office helping them get started.

II. Crop Projects.

few years, were found to blight quite badly. Hollybrooks were favored by most farmers that had them, growing from two and one-half to three and one-half feet high and standing up pretty well.

On several of these plots soybeans were drilled or broadcasted for hay, not to replace alfalfa or clover, but as an emergency measure to get some legume hay if others winter kill.

III. Soils Projects.

1. Drainage.

Forty-one drainage surveys were made for 35 farmers, which would have cost them from \$25 to \$50 apiece for a drainage engineer—a direct saving of \$1,000 to \$1,500 to them this year, in addition to the increased production gotten off their land after adopting our recommendations.

About 3,000 rods of levels were run for these individual farmers in preliminary surveys to plan drainage of 1725 wet acres; and over 3000 rods more of levels were run on four large areas affecting the drainage of 6225 acres wet land, making a total of over 6000 rods or nearly 40 miles of levels run for the drainage of 7950 acres with about 180 farmers interested. Two or three of these areas have good prospects of becoming drainage districts this coming year.

Of drainage actually done 14,500 feet tiling and 1190 rods of ditching was supervised, draining some 283 acres. In addition there was some drainage done for which this office had made surveys and plans in previous years. This amount of drainage actually done seems relatively small. There are two reasons for it: First, not as many farmers used this drainage service as might have; second, the scarcity of money on the farm pre-

vented many farmers from buying tile that had planned on it. With a gradual return to normal there will be a steady growth in tiling and drainage, resulting in a marked increase of wealth and productivity. Combining the work of the previous two years with this for which accurate records were kept, there have been 144,500 feet or over 51 miles, of tile put in under the county agent's supervision.

IV. Commercial Fertilizer Trials.

2. Some seven or eight farmers co-operated in trying out a high-grade of phosphate fertilizer on corn. None of them could report any striking results in the way of increased or economical production. They felt that the dryness of this season did not give the fertilizer a fair chance. However, that may be, we will continue our investigation to determine where the commercial fertilizer has a place on dairy farms and to what extent it might be profitably used.

Very striking results were obtained on much on the C. B. Cornelius farm near Larsen. Here a mixed fertilizer was used on raw muck plowed the first time. The unfertilized area raised only a few spears of grain; whereas the fertilized areas produced about 30 bushels of rye and wheat per acre.

3. Soil Analysis.

To find out whether certain soils on certain farms needed any fertilizer in addition to what they were getting, we had a soils specialist from the Agricultural College take a variety of soil samples from the farms of Levi Jones, Utica, Ed. Mackie and Jones Bros. of same town, Burt Brewer of Nepeuskun, and Pat Dolan of Winneconne and Ed King of Omro. More farmers are on the waiting list. As soon as these analyses are completed, meetings will be had in the several communities with this expert and the results discussed, and recommendations made for handling those soils.

IV. Miscellaneous.

1. Use More Milk Campaign.

When last summer's agitation was started by a number of our farmers for a movement to get the general public better acquainted with the high food value and the low cost relatively of milk and dairy products, your agricultural agent took hold of the proposition. With the co-operation of all the farm organizations and with the town chairman and boards in charge of the campaign in most towns, a farm to farm canvass was made to pledge the dairymen to give the receipts of one day's milk for an educational advertising campaign. At the same time they pledged not to use any oleo themselves in competition with their own product. The necessary three-fourths majority having been assured, a committee of three has been put in charge of this fund, one of your members being the chairman—John Jensen. Your agricultural agent has been advising with this committee on the immediate inauguration of a "Use More Cheese and Butter Campaign." Posters and other material are now in preparation. Plans are being made for a "Use More Milk" week in February. This being a matter of public health and welfare as well as of producers' interest, we have had promises of hearty co-operation from nurses, doctors, women's clubs, civic associations, etc.

2. Farm Home Grounds Beautifying.

Four demonstrations in this project have now been carried on for two or three years in co-operation with Professor F. A. Aust the "U" landscape gardener, on the farms of Herman Ihde in Clayton, A. P. Plummer in Oshkosh, Wm. Nelson in Algoma, and John Bloom in Nekimi. The arrangement of a few shrubs and flowers, lawn, driveway, and trees have very materially improved the appearance and homelikeness of these places. More work of this kind needs to be done to demonstrate that any farm home can have pleasant surroundings with a little work and a small outlay for materials. It takes pleasant surroundings, with modern conveniences and labor saving devices for the housewife, to take the drudgery out of the farm home and make it a place enjoyable for the whole family.

These things, together with the good roads you are building, and an income sufficient to support a Ford, will do much towards making farm life what we would all like to have it be—the healthiest and most enjoyable place to live.

Special Work

The first two weeks in January were spent in visiting hospitals and Sunnyview Sanatorium, and in establishing co-operation. Miss Van Kooy, state field worker of Public Health Nursing, spent a few days here. We spent the time in looking over records and planning the work for the future. Dr. Pleyte was here in the early part of the year and we planned for chest clinics to be held at Omro and Winneconne, once a month. There were four of these clinics held in the high school at both villages. A number of people attended the clinics. We endeavored to have the contact cases in for examination and urged those who had any chest trouble to take treatment at once for same. I believe that the county nurse should co-operate with the county institutions.

One of the first things that we did was to place a child who was deaf and who had defective speech (the deafness was caused from scarlet fever) in the school for the deaf at Oshkosh where the child is doing good work. We have several children in the rural district who have defective speech and Miss Fitzgerald of the Dale school has been co-operating and given us the first opportunity of placing the children in, but we have not been able to get the consent of the parents except in this one case. It seems a pity when the children have such an excellent opportunity to overcome the defect, that they are not availing themselves of this wonderful opportunity.

We have called a meeting of the Public Health nurses in the county on an average of once in two months. We feel that we can talk over some of the problems and get one another's ideas and in this way establish a spirit of co-operation among the Public Health Nurses.

I have attended 14 evening meetings and given health talks at each of these meetings.

There have been organized five classes in home hygiene and care of the sick. One class has been completed; the others are under instruction. The members of these classes seem greatly interested in the work. Our adult classes are conducted for two months. Two of the classes are held in the schools of Omro and Winneconne and are composed of high school girls and some of the teachers' training class. Every rural school teacher should have a course of this kind. We have asked the doctors to give a lecture, to which they have kindly responded.

Among other things we have been trying to combat communicable diseases. I have in my work known of 65 cases of communicable diseases many of which, if not all, might have been prevented. It looked very much as though we might have an epidemic of diphtheria in one of our villages. There were only a couple of severe cases. The others proved to be carriers which are much more dangerous to the community than the severe cases might be.

Last spring a nutrition class of 33 children was organized in one of our schools. We found that nearly one-half of the school was 7 per cent or more under weight. All of the pupils who adhered to the rules of the class gained from $\frac{1}{4}$ to 2 pounds per week. These children were given a half pint of milk and a graham cracker twice daily. Then they were to have a rest period. We hope to be able to reorganize the class again this year, and perhaps organize classes in some of the other schools.

At the fair, we held a clinic for children of pre-school age which was a real success. I wish to thank the doctors who so willingly gave their time to this work. We had a physical, mental, dental and nose and throat department. Drs. Lockhart, Hogan and Koehler made physical examinations, Drs. Schneider and Ising dental, Drs. Linn, Hunt and Hugo, nose and throat, Drs. Conley and Miss Nellie Davies, mental. Several of the doctors suggested that we make this one of the features of the fair—that a building be erected and that we have a general clinic each year.

There are seven of the schools who have put in first aid kits during the last year. In a list made up this spring we found that thirty-two schools have first aid material. Every school in the county should be provided with this.

Thirty-three schools this year have equipment and are prepared to serve warm lunches.

Much credit is due the teachers for their co-operation in this work. The county nurse could do but little were it not for the co-operation of teachers, parents and those in the community who are interested.

Disease prevention is health promotion.

Respectfully submitted,

ELIZABETH E. JONES, County Nurse.

Would recommend that \$1200 be allowed for the expenses of the County nurse.

To the Honorable, the County Board of Supervisors of
Winnebago County, Wisconsin:

Gentlemen: Your Committee on Illegal Assessments beg leave to report that we have had under consideration the petition of Carroll H. Larrabee, county treasurer of Winnebago County for the cancellation of the tax certificates which reads as follows, to-wit:

I.

To the Honorable, the Board of Supervisors of
Winnebago County, Wisconsin:

Gentlemen: In the matter of the application of Carroll H Larrabee, county treasurer, for the cancellation of tax certificates numbered 107, 111, 366, sale of 1917; 155, sale of 1918; 130 sale of 1920, and 148 sale of 1921.

The undersigned, your petitioner, respectfully represents that he, on behalf of the county, is the lawful owner and holder of tax certificates hereinbefore described; that said tax certificates are illegal and void for the reasons hereinafter stated.

Tax Certificate 107, sale of 1917, covering part of Lot 9, Menasha W. S. P. Co.'s Subdn. of part of lot 5, Second ward, city of Menasha, is illegal and void for the reason that said description is indefinite.

Tax certificate 111, sale of 1917, covering 50 x 135 S. side of 6th St. Lot 6, Block 55, Fourth ward, city of Menasha, is illegal and void for the reason that said description is indefinite.

Tax certificate 366, sale of 1917, covering No. 50 ft. of E. 188 ft. of N. 120 ft. of Lot 52, Lots in S. W. ¼ Sec. 23, T. 18, R. 16 Sixth Ward, City of Oshkosh, is illegal and void for the reason that this property is erroneously described, the portion of Lot 52 which this certificate is intended to describe being E. 50 ft. of W. 250 ft. of Lot 52.

Tax certificate 155, sale of 1918, 130 sale of 1920, 148 sale of 1921,

covering Lot 4, Block 17, Blocks, 14, 17, 26, according to Palmer's Map, Fourth Ward, city of Neenah, are illegal and void for the reason that Palmer's Map of the Fourth Ward, city of Neenah does not indicate or show any lot numbered 4, in Block 17.

Your petitioner therefore prays that said tax certificates be cancelled and that the amount so paid for said tax certificates be refunded to petitioner with interest at the rate of 7 per cent per annum until paid.

Respectfully submitted,

CARROLL H. LARRABEE,

State of Wisconsin
Winnebago County—ss.

Carroll H. Larrabee, being duly sworn on oath, says, that he, on behalf of the county, is the petitioner above named, and that he has read the above and foregoing petition, and knows the contents thereof, and that the same is true to the best of his knowledge and belief.

CARROLL H. LARRABEE.

Sworn and subscribed to before me this 16th day of November, 1921.

UNIFORM SYSTEM OF BOOKKEEPING

Supervisor Stanley offered the following Report No. 1:

Gentlemen: Your committee on Bonds and Salaries, which at the November session, was instructed to investigate the system of uniform accounts, as recommended by the Wisconsin State Tax Commission and report back the result, beg to report as follows:

Under the system of uniform accounts as recommended by the Wisconsin Tax Commission we find:

First—Anyone seeking any or full information on the financial transactions of the county, can get it all in one central office.

Second—All payments are made on a uniform "order check," which are entered numerically on both the clerk's and treasurer's records. Receipts are handled likewise and the cash balance at the end of each day or month or year is exactly the same on the treasurer's and clerk's records.

Third—The system is simple and compact and furnishes records that are of unmeasurable value.

Fourth—The question was raised as to the legality of the system. Section 59.07 of the Statutes provides: "The county board of each county is empowered at any legal meeting to prescribe the form and manner of keeping the public records of the county in any county office and the accounts of the several county officers * * * " and

Section 1317m-5, paragraph (e) provides:

"Any county which has adopted a definite statutory manner of making all payments from the County Treasurer, with which the provisions of this subsection conflict, may make payments from the county road and bridge fund in the manner for making other disbursements in such county.

It seems that the two mentioned sections gives the County Board ample authority to prescribe the books and system that shall be kept.

Fifth—Under the uniform system, the chairman of the County Board is required to sign all orders which, as questions brought out, would require almost his constant attention but as his signature does not indicate that any audit, of the claim, has been made by him he could therefore sign several hundred in advance or have a rubber stamp made to be used in lieu of his signature. However, on orders issued in payment of court claims, highway claims, etc., his signature is not necessary.

(a) The clerk's office will be the central office for all information on financial matters.

(b) The clerk's office will need to be remodeled to some extent.

(c) The clerk will require the assistance of two deputies instead of only one, as at present.

(d) The deputies in both the Clerk's and Treasurer's office will be able to perform their duties on smaller salaries than are paid at present.

(e) The complete cost of installing the system is approximately \$800.00.

(f) There need be no expense for maintenance after the installation.

(g) A trial balance is called for, by the Wisconsin Tax Commission, from time to time so as to keep a check on the manner in which the system is being conducted.

(h) Forty-five counties in the state have adopted the system and none have gone back to their old system.

Seventh—In summing up our investigation, briefly, we have concluded that the uniform system of book-keeping, in centralizing all financial

information in one office, will add dignity and efficiency to our system of conducting county affairs and the simpleness and compactness of the system will give to the county records of unmeasurable value and, therefore, we, your committee, recommend to the County Board:

That the County Board take steps toward the installing of the Uniform System of Bookkeeping as recommended by the Wisconsin Tax Commission

F. W. STANLEY, Chairman

ILLEGAL ASSESSMENTS

M. M. Schoetz offered the following Report No. 12, and accompanying resolution.

Your Committee on Illegal Assessments beg leave to report that they have had under consideration a petition of Rev. Edward H. Smith, by his attorneys, Thompson, Grunewald & Hull, and respectively alleges and shows to the County Board of Supervisors of Winnebago county, Wisconsin, as follows:

First—That your petitioner is the owner of the premises known and described as Lot 17, of Block 20, in L. M. Miller's first addition, in the Eighth ward, city of Oshkosh, Winnebago County, Wisconsin; that there is located on said premises a certain three-story stone and cement building suitable for manufacturing purposes.

That your petitioner, as such owner, aforesaid, did on or about the 11th day of December, A. D. 1917, enter into a certain written lease wherein and whereby your petitioner did as lessor, lease said described premises and the buildings thereon to the Molle Typewriter company, a Wisconsin corporation of Oshkosh, Wisconsin, for the term of three years from the first day of January, A. D. 1918; that said lease contained a privilege of renewal for five years after the expiration of the term named therein, and that the lessee named in said lease has exercised said privilege of renewal and was on said 11th day of December, A. D. 1917, ever since has been and now is a tenant of your petitioner, and as such, occupying said premises, and said building under said lease, and using the same for the purposes of manufacturing its product in the city of Oshkosh, Wisconsin, and is using the same as a manufacturing establishment and for other purposes in connection with its business of manufacturing typewriters in the city of Oshkosh, Wisconsin.

Second—That said, the Molle Typewriter company, the lessee under said lease and the tenant of your petitioner aforesaid, did install and still has installed in said building on said premises certain machinery used for manufacturing its product, to-wit: Molle Typewriters; that said machinery consists of more or less heavy machines, some of which are fastened to the floor of said building by screws log bolts and some of which rest and stay in place by means of its own weight; that said machinery is operated by power which is transmitted to said machinery from pulleys and shafting which run overhead and are connected to said machinery by belting; that said shafting, pulleys and belting form an integral part of said machinery and have been installed in said building by said, The Molle Typewriter Company and that said machines and said shafting, pulleys and belting constitute and form the machinery belonging to and operated by said, the Molle Typewriter Company.

Third—That the tax roll of the city of Oshkosh, Winnebago county, Wisconsin, for the year 1920, contain an entry which indicates the City Assessor of the city of Oshkosh, Wisconsin, has duly assessed said land and said building to the owner thereof, to-wit: Your petitioner, Rev. Edward H. Smith, and further than that said assessor has assessed the machinery in said building owned by said the Molle Typewriter Company to said The Molle Typewriter Company for the year 1920. That the taxes for the year 1920 have been returned as delinquent and uncollectable by the said city of Oshkosh to the County Treasurer of the county of Winne-

bago, state of Wisconsin, and that a tax certificate has been duly issued by the county treasurer of Winnebago county, certifying among other things, that said County Treasurer, did at public auction on the 8th day of June, 1921, sell to one R. D. Wynn (or the county of Winnebago) the said land therein described for the sum of \$1,017.86, which said sum is the amount due and unpaid for taxes, interest and charges on said land for the year 1920 and that the said R. D. Wynn, his heirs or assigns (or said County or assigns), will therefore be entitled to a deed of conveyance of said land in three years from the date of said certificate unless sooner redeemed from such sale according to law; as more specifically appears from a true copy of said tax certificate hereto annexed made a part hereof and marked exhibit "A."

That the lands described in said tax certificate as lot 17 of Block 20, in L. M. Miller's First Addition in the 8th Ward, city of Oshkosh, Winnebago County, Wisconsin, are the same premises as are described in this petition as being owned by your petitioner, Rev. Edward H. Smith.

That your petitioner is informed and believes that under and by virtue of said tax certificate and prior and subsequent proceedings his said property will be sold to satisfy the taxes assessed and levied on and against the property of his tenant, The Molle Typewriter Company, and that said tax certificate and the proceedings prior and subsequent thereto constitute a lien on his premises and a cloud on the title to his lands herein described.

Fourth—That your petitioner is informed and verily believes that the machinery belonging to the Molle Typewriter Company and located in the building of your petitioner on the premises aforesaid, does not constitute in any sense of the word, fixtures, and that said machinery is no part of said building or said premises, and is not attached thereto; that on the contrary, said machinery is separate and distinct from said building and is capable of being easily removed therefrom without doing injury to said building, and is capable of being separately assessed for taxes and sold for non-payment thereof; that your petitioner has no interest whatsoever in said machinery, and that the same belongs wholly and entirely to and is the property of the Molle Typewriter company and is in said building as the property of the lessee thereof and by virtue of the privileges contained in said lease and that your petitioner has no interest therein.

Fifth—That your petitioner has been informed and verily believes that the action of the City Assessor, the County Treasurer and others in authority in selling said land and premises belonging to your petitioner to satisfy the unpaid taxes on said machinery was erroneous and contrary to law and without precedent or justification, and that said sale of said premises and the certificate issued thereon were and are invalid, wherefore your petitioner respectfully prays that the Co. Board of Supervisors, of county of Winnebago and state of Wisconsin, shall make an order, briefly stating the reason therefor, directing that the money paid for said certificate on said sale, and all subsequent charges thereon, and all subsequent taxes paid on the lands described therein (being the premises owned by your petitioner and described herein) by the purchaser or his assigns, be refunded with interest to such purchaser or his assigns, upon the delivery of the certificate to be cancelled, and that if the County Treasurer, shall, in pursuance of such order, offer to the person entitled thereto, his money, as aforesaid, and he shall refuse to receive the same, and cancel said certificate, he shall not be entitled to receive any interest on the money so paid by him after the day of such offer and refusal, and that no recovery shall ever be otherwise had against the county of Winnebago on such certificate; and further directing that said sale of said premises and said certificate and all subsequent proceedings thereon be declared invalid and of no effect and void, and directing the county Treasurer of Winnebago county, Wisconsin, or some other proper person to cancel said certificate, and for such other and further relief as may seem just, necessary and proper in the premises.

Signed by Thompson, Grunewald & Hull, Atty. for Petitioner.

First—Your Committee on Illegal Assessments find that said petition is duly verified according to law.

Second—Your said committee find that our District Attorney, D. K. Allen, made a note on said petition that in his opinion that the tax is illegal.

Third—Your said committee find the facts set forth in said petition to be true, except that said tax certificate is owned by Winnebago county and is now in the office of the County Treasurer of said Winnebago county.

Fourth—Your committee finds that said tax certificate is illegal and void and recommend that it be cancelled and that the County Treasurer and County Clerk note same on the records and that the County Treasurer write on the face of said tax certificate that same was cancelled by order of the County Board of Supervisors of Winnebago County, Wisconsin, March 10, 1922.

Your committee further finds that the amount of said tax certificate is \$1,017.86. Interest at 7 per cent from June 8, 1921, \$53.45. Total \$1,077.31; and that said sum of \$1,071.31 be charged back to the city of Oshkosh, Wisconsin.

Schmitt, upon the following described real estate to-wit: City of Neenah, Fourth ward, Block 14-17-26, according to Palmers Map, Lot 4, Block 17.

That petitioner is the lawful owner and holder of said tax certificate; Your petitioner further shows that said tax certificate is illegal and void, that the description mentioned above being incorrect and indefinite for the reason that said Palmers Map of the Fourth Ward, City of Neenah, does not indicate or show any lot in Block 17, which is numbered four (4).

Your petitioner therefore prays that said tax certificate be cancelled and the amount so paid for said tax certificate be refunded to petitioner with interest at the rate of seven per cent per annum until paid.

Your committee finds the facts set forth in said petition to be true and recommend that said Tax Certificate be cancelled and the amount of same be refunded to petitioner upon the surrender of said certificate to-wit:
