

To Whom It May Concern:

On 7-25-2012 I was riding in the sheriff's transport van on my way to court. At approximately 8:45 am we were entering the sally port of the court house. The transport van made contact with the sally port door and the deputy operating the vehicle slammed on the breaks and caused an injury to my neck and my back. For this incident I am notifying Winnebago County that I would like compensation for my injuries. I would like \$5,000 to pay for my medical bills, pain and suffering, emotional distress, and mental anguish. Also, the time I was unable to work due to my injuries. Winnebago Country is financially responsible and liable for the negligent act that caused my injury per Wisconsin statute. I was told to contact Winnebago County using a letter to resolve this incident. If you are refusing to compensate my relief of this notice and injury and the claim, I will be forced to go to the higher court.

Sincerely,

Gipson
