

county clerk request

To Whom It May Concern,

On 2/8/13 I was driving on Highway 41 in the southbound lane By Neenah when I hit a large "hole" in the center lane near

the Main Street exit around 4:00 PM. This caused me to have an immediate flat tire on my front left side. I had a hard time

getting to the side of the road safely. When I did get there I was the 3rd car pulled over with a flat tire. I immediately

called 911 and I was told by the dispatcher that 2 others had already called stating the same thing and they would get a

squad there as soon as possible. After all was said and done, approximately 6-7 cars were pulled over with similar issues.

It seems the patch in the road that was put there earlier in the day had failed possible because the snowplows had lifted

it during plowing. For this to happen, this patch had to have been repaired improperly. They came again to patch the hole

during heavy traffic conditions and the patch was finally done right and did hold in place. I have submitted an estimate

from Bergstrom Automotive for repair and replacement of 2 bent rims, 2 new tires and front end alignment. This would not

have happened if the Winnebago County workers who patched the road had done it properly to ensure safe travel on our roads.

This was an EXTREMELY dangerous situation that could have been avoided. Luckily there was no multicar pileup or injuries.

I have submitted my estimate to you to receive payment for the repairs. Please contact me with any questions or concerns.
