*WCHD case counts refer to Winnebago County Health Department jurisdiction, which excludes the portions of the [City of Menasha](#) and [City of Appleton](#) that fall within Winnebago County.

Spotlight: Hepatitis B

- The CDC recommends screening all adults aged 18 years and older for hepatitis B at least once in their lifetime using a [triple panel test](#).
- To ensure increased access to testing, anyone who requests HBV testing should receive it regardless of disclosure of risk.
- Many people might be reluctant to disclose stigmatizing risks.
- Screening and testing guidance can be found on the [CDC website](#).

Spotlight: COVID Response Update

- COVID-19 vaccine and testing clinics at Sunnyview Expo Center in Oshkosh have ended.
- The COVID-19 vaccine is available at the County Administration Building (112 Otter Ave, Oshkosh) between 8am and 4pm on Tuesdays or by appointment.
- More than 100,000 COVID tests and 30,000 vaccine doses were administered at Sunnyview.
- At-home rapid tests are available until the end of May through the [Say Yes Covid Test](#) program. Free at-home test kits are also available at [these community locations](#).
- The Winnebago County Health Department Weekly COVID Data Summary will also be discontinued after April 21, 2023.
- Links to access community data can be found on our [website](#).

Reportable Diseases

A selection of common reportable disease are showcased to the left; more extensive lists can be found in the [full-length report](#).
