

Options Dementia and Memory Loss Services

Building Independence AND Connections!

Options Dementia and Memory Loss Services help people improve their health, safety, and independence by connecting them with information, resources, adaptive equipment, and tools to remove barriers and live the life they want!

We will come to your home and work with you to:

- Improve or maintain physical and emotional health
- Improve safety
- Improve independence
- Enhance the caregiving experience by reducing caregiver stress
- Expand your OPTIONS!

Program Description

This unique program was developed through technology to address the home safety, independence, and social needs of older people. It also assists their caregivers!

There are no fees for home visits.

Other Program Features:

- Equipment try-out program
- Follow-up by expert staff with ongoing training of equipment if needed
- Funding assistance for equipment if needed
- Powerful community referrals

Don't use technology? We can help you learn! Feel like you want to learn to use technology better? We can help !

Home Visit Assessment Areas

- Home Safety
