PLATS OF SURVEY ONLINE

Winnebago County is committed to providing access to land surveying records. Plat of Survey documents can now be accessed online. Surveys from the 1940s to the early 2000s have been converted to pdf from Microfiche. Surveys after 2000 have been scanned or were provided originally as pdf documents.

Be aware that survey documents originally from Microfiche are in the process of being organized. Multiple surveys had been put in a single pdf. Surveys in cities and villages were also not organized by town, range, and section. We are organizing surveys in cities and villages first because those areas are the most difficult to find an older survey.

To view official Certified Survey Maps, Subdivision Plats, and Deeds please visit the Winnebago County Register of Deeds Office or use Tapestry online. *See the disclaimer on page 2.*
