CLASSES INCLUDE:

Strong Bodies: Simple scripted program that improves bone density, balance, and strength for participants.

Stepping On: Prevention program aimed at educating participants and building confidence to reduce and eliminate falls.

Mind Over Matter (M.O.M): A program designed to give women the tools and skills they need to take control of bladder and bowel leakage.

Healthy Living With Diabetes: Helps adults with type 2 diabetes or pre-diabetes learn self-management skills and increase their confidence in managing their diabetes.

Stand Up! (Stand Up and Move More): This class helps those that have difficulty moving or have more sedentary behavior to stand up and move more.

Walk with Ease: This class is designed to reduce pain and build strength and confidence through walking.

Powerful Tools for Caregivers: A class for family caregivers provides strategies to better handle the challenges caregivers can run in to.

Healthy Living With Chronic Pain: Teaches adults with chronic pain how to effectively manage pain and improve energy, mental health and quality of life.

Tai Chi: This class uses basic, fluid movements to help improve balance, stability and mental health. Movements can be adapted for those with walkers or canes.
