REMINDER NOTICE

Date: September 22, 2016
To: Winnebago County Transfer Station Customers and Haulers
From: Kurt Pernsteiner, Facility Manager
Re: Safety Vest Policy Reminder Notice

Winnebago County Solid Waste has instituted a Safety Vest Policy for all customers and haulers using the Transfer Station. Any driver who steps out of his/her vehicle in the Transfer Station is required to wear a high visibility safety vest or other approved safety wear.

Effective October 1, 2016 Winnebago County will have safety vests for sale for \$5.00 each for any one that does not have one.

Due to the high congestion in the Transfer Station, management has deemed it necessary to take this step. The safety of Transfer Station personnel, haulers and customers must come first.

We appreciate your cooperation in this matter and ask that you discuss this issue with your drivers. If you have any questions or concerns, please feel free to contact me.
