The Wave of the Future

June 30, 2021

To the Honorable County Board of Supervisors and Citizens of Winnebago County, Wisconsin:

State law requires that all general-purpose local governments with a population over 25,000 publish within seven months of the close of each fiscal year a complete set of financial statements presented in conformity with generally accepted accounting principles (GAAP) and audited in accordance with generally accepted auditing standards by a firm of licensed certified public accountants. Pursuant to that requirement, we hereby issue the comprehensive annual financial report of Winnebago County, Wisconsin for the fiscal year ended December 31, 2020.

This report consists of management's representations concerning the finances of Winnebago County, Wisconsin. Consequently, management assumes full responsibility for the completeness and reliability of all of the information presented in this report. To provide a reasonable basis for making these representations, management of Winnebago County, Wisconsin has established a comprehensive internal control framework that is designed both to protect the government's assets from loss, theft, or misuse and to compile sufficient reliable information for the preparation of the Winnebago County, Wisconsin financial statements in conformity with GAAP. Because the cost of internal controls should not outweigh their benefits, the Winnebago County, Wisconsin comprehensive framework of internal controls has been designed to provide reasonable rather than absolute assurance that financial statements will be free from material misstatement. As management, we assert that, to the best of our knowledge and belief, this financial report is complete and reliable in all material respects.

The Winnebago County, Wisconsin financial statements have been audited by Clifton Allen Larson, a firm of licensed certified public accountants. The goal of the independent audit was to provide reasonable assurance that the financial statements of Winnebago County, Wisconsin for the fiscal year ended December 31, 2020, are free of material misstatements. The independent audit involved examining, on a test basis, evidence supporting the amounts and disclosures in financial statements, assessing the accounting principles used and significant estimates made by management; and evaluating the overall financial statement presentation. The independent auditor concluded, based upon the audit, that there was a reasonable basis for rendering an unmodified opinion that the Winnebago County, Wisconsin financial statements for the fiscal year ended December 31, 2020, are fairly presented as the first component of the financial section of this report.

The independent audit of the financial statements of Winnebago County, Wisconsin was part of a broader, federally mandated "Single Audit" designed to meet the special needs of federal grantor agencies. The standards governing Single Audit engagements require the independent auditor to report not only on the fair presentation of the financial statements, but also on the audited government's internal controls and compliance with legal requirements, with special emphasis on internal controls and legal requirements involving the administration of federal awards. These reports are available in the Winnebago County, Wisconsin separately issued Single Audit Report.

GAAP requires that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to complement MD&A and should be read in conjunction with it. The Winnebago County, Wisconsin MD&A can be found immediately following the report of the independent auditors.

Profile of the Government

Winnebago County, Wisconsin, established in 1840, is situated in east central Wisconsin, bordered on the east and including parts of Lake Winnebago. Winnebago County, Wisconsin anchors the southern half of the Fox River Valley -- one of the largest metropolitan areas in Wisconsin. Winnebago County, Wisconsin occupies a land area of 286,912 acres and serves a population of 169,861. The County is empowered to levy a property tax on both real and personal property located within its boundaries.

Winnebago County, Wisconsin operates under a County Board - Executive form of government. Policy-making and legislative authority are vested in a governing board consisting of 36 elected supervisors. The County Board of Supervisors is responsible, among other things, for passing resolutions, adopting the budget, and appointing committees. The Executive is responsible for carrying out the policies of the Board, overseeing the day-to-day operations of the County, and for appointment of heads to non-elected departments. The Board is elected on a non-partisan basis, and supervisors are elected to districts to serve two-year terms. The Executive is elected to serve a four-year term.

Winnebago County, Wisconsin provides a full range of services; including law enforcement, recreational and cultural activities; planning and zoning services; health and human services; solid waste disposal; education; airport and health care facilities; maintenance of highways; support for the state's judicial system and general administrative services. In addition, the County has established a housing authority.

The annual budget serves as the foundation for Winnebago County, Wisconsin's financial planning and control. All departments of the County are required to submit requests for appropriation to the County Executive in late July of each year. The County Executive uses these requests as the starting point for developing a proposed budget. The County Executive then presents this proposed budget to the County Board for review and adoption at its late October to early November budget meetings. The County Board is required to hold public hearings on the proposed budget and to adopt a final budget by early November of each year. The adopted budget is prepared by division, department, and category. The categories consist of labor, travel, capital, and other expenditures. Department heads may make transfers of appropriations within categories within their own department. Transfers of appropriations between categories or departments, however, require the special approval of the Personnel & Finance Committee. Transfers exceeding \$15,000 require the approval of the County Board.

Budget-to-actual comparisons are provided in this report for each individual governmental fund for which an annual budget was adopted.

Factors Affecting Financial Condition

The information presented in the financial statements is perhaps best understood when it is considered from the broader perspective of the specific environment within which Winnebago County, Wisconsin operates.

Local economy. Winnebago County, Wisconsin normally has a relatively stable economic environment however, since March 2020, the COVID-19 pandemic has had a significant impact. The region is most noted for a stable industrialized base that centers on the paper, packaging and specialty heavy vehicle industries. National paper companies have significant manufacturing operations here. Paper and allied products, lumber and wood products, printing, publishing and allied products, primary metal industries and transportation equipment are Winnebago County, Wisconsin's specialties.

Tourism also plays a large role in the economic health of Winnebago County. Families vacation here all year round to take advantage of the many outdoor recreational activities that are available. Fishing on the Fox River chain and outdoor music concerts are several of these activities. The County is also known worldwide for the Experimental Aircraft Association, which hosts its international fly-in at Oshkosh Wisconsin's Wittman Regional Airport for ten days each summer. People from all over the world descend on Oshkosh during this convention.

Like most US counties, the current environment is experiencing elevated levels of unemployment, increased uncertainties and a temporary suspension of tourism events due to the COVID-19 pandemic. The County expects employment and tourism to return to traditional levels once the pandemic is over.

Long-term financial planning. Winnebago County, Wisconsin has continued to keep the County's highway system in very good shape. These highway projects are necessary partially because of the age of the roads but mostly due to the development of residential property and because of business expansion. These roads are necessary to handle the current and future expected traffic flows.

Winnebago County, Wisconsin will continue to look for cost saving opportunities through the consolidation of services with neighboring governments. We have continued successes with the tri-county solid waste disposal and recycling program. We have also consolidated the health departments of several municipalities within the County. Working jointly with neighboring governments helps eliminate the duplication of staff and equipment costs associated with delivering services.

Cash management policies and practices. Cash temporarily idle during the year was invested in certificates of deposit, obligations of the U.S. Treasury, agencies and instrumentalities, demand deposits, federally backed adjustable rate mortgage pools, municipal debt instruments, and the State of Wisconsin Local Government Investment Pool. The maturity of the investments ranges from 30 days to 7 years, excluding Solid Waste Trust Funds which extend out to 20 years, with the average maturity of 24 months. The average yield on investments (excluding the mark to market year end adjustment) was 2.29% for the year. Investment income in the CAFR includes the increase in the fair value of investments that occurred at the end of 2019. Increases in fair value during the current year, however, do not necessarily represent trends that will continue; nor is it always possible to realize such amounts, especially in the case of temporary changes in the fair value of investments that the government intends to hold to maturity.

The County has adopted an investment policy, which establishes guidelines for investments but allows the Finance Director to function properly within the parameters of responsibility and authority. It also establishes a prudent set of basic procedures to ensure that investment assets are adequately safeguarded.

Risk Management. The County has property and crime deductibles ranging from \$5,000 to \$10,000. Most of the County is insured by the Wisconsin County Mutual Insurance Corporation (WCMIC) for general, automobile, and public official's liability. The County has a \$100,000 per occurrence, \$250,000 annual aggregate deductible under the WCMIC policy. Park View Health Center has its own general and medical liability policies, and Wittman Regional Airport has its own airport liability policy. These policies do not have any deductibles. The Solid Waste Department has a pollution liability policy with a \$250,000 retention for each loss and a \$20,000,000 each loss/\$20,000,000 total losses limit of liability. Winnebago County, Wisconsin is self-insured for automobile collision, worker's compensation, health, and dental insurance. Portions of these self-insured programs are covered by stop loss protection or excess insurance policies.

Minute Men HR of Wisconsin Insurance Company is our third-party administrator for our worker's compensation self-insurance program. The County has a \$500,000 per occurrence retention for both worker's compensation and employer's liability. Additional information on the County's risk management activity can be found in the notes to the basic financial statements later in this report.

Pension. Winnebago County, Wisconsin employees are covered for retirement purposes under the Wisconsin Retirement Fund, which is administered by the State of Wisconsin's Department of Employee Trust Funds. Employee contributions are 6.75% of salary. An overall employer contribution rate is actuarially determined each year, and the County funded roughly half of this year's required contribution. Winnebago County, Wisconsin previously had an unfunded past service pension liability. However, that liability was retired in early 2003.

Acknowledgements

The preparation of this report would not have been possible without the efficient and dedicated services of the entire staff of the Finance Department. We would like to express our appreciation to all members of the department who assisted and contributed to the preparation of this report. Credit must also be given to the Winnebago County, Wisconsin Board of Supervisors and to the Personnel & Finance Committee for their unfailing support for maintaining the highest standards of professionalism in the management of Winnebago County, Wisconsin's finances.

We also want to recognize the Clifton Allen Larson management team, for their expertise which contributed significantly to the report quality and adherence to professional accounting standards.

Respectfully submitted,

onathan Doemel County Executive

WINNEBAGO COUNTY

Independent auditors' report

To the County Board Winnebago County Oshkosh, Wisconsin

REPORT ON THE FINANCIAL STATEMENTS

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of the Winnebago County, Wisconsin (the "County") as of and for the year ended December 31, 2020, and the related notes to the financial statements, which collectively comprise the County's basic financial statements as listed in the table of contents.

MANAGEMENT'S RESPONSIBILITY FOR THE FINANCIAL STATEMENTS

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

AUDITORS' RESPONSIBILITY

Our responsibility is to express opinions on these financial statements based on our audit. We did not audit the financial statements of the Winnebago County Housing Authority, which represents 100% of the assets and revenues of the County's discretely presented component unit. Those financial statements were audited by other auditors whose report thereon has been furnished to us and our opinions, insofar as it relates to the amounts included for the Winnebago County Housing Authority is based solely on the report of other auditors. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditors consider internal control relevant to the County's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the County's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

OPINIONS

In our opinion, based on our audit and the report of the other auditor, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of the County as of December 31, 2020, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

OTHER MATTERS

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's discussion and analysis on pages 18-37, budgetary schedules on pages 115-117, schedules of OPEB liability and related contributions on pages 118-119, Local Retiree Life Insurance Fund contributions schedule on page 120, Pension Liability and related contributions schedules on pages 121-122 and the related notes to the required supplementary information on pages 123-124 be presented to supplement the basic financial statements. Such information, although not part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Prior-Year Comparative Information

We have previously audited the County's 2019 financial statements, and we expressed unmodified opinions on the respective financial statements of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information in our report dated August 28, 2020. In our opinion, the summarized comparative information presented herein as of and for the year ended December 31, 2019, is consistent, in all material respects, with the audited financial statements from which it has been derived.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the County's basic financial statements. The combining, individual fund and non-major fund financial statements and schedules, introductory section and statistical section listed in the table of contents are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining, individual fund and non-major fund financial statements and schedules are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supplementary information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on them.

Prior Year Summarized Financial Information

We also previously audited, in accordance with auditing standards generally accepted in the United States of America, the basic financial statements of Winnebago County, Wisconsin as of and for the year ended December 31, 2019 (not presented herein), and have issued our report thereon dated August 28, 2020, which contained unmodified opinions on the respective financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information. The general fund and human services fund budgetary comparison information, and the comparative and combining financial statements for the year ended December 31, 2019 is presented for purposes of additional analysis and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the 2019 financial statements. The general fund and human services fund budgetary comparison information, and the comparative and combining financial statements have been subjected to the auditing procedures applied in the audit of the 2019 basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare those financial statements or to those financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the general fund and human services fund budgetary comparison information, and the comparative and combining financial statements is fairly stated in all material respects in relation to the basic financial statements as a whole for the year ended December 31, 2019.

OTHER REPORTING REQUIRED BY GOVERNMENT AUDITING STANDARDS

In accordance with *Government Auditing Standards*, we have also issued our report dated July 30, 2021, on our consideration of the County's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the County's internal control over financial reporting and compliance.

Management's Discussion and Analysis December 31, 2020

As management of Winnebago County, Wisconsin, we offer readers of the County's financial statements this narrative overview and analysis of the financial statements of Winnebago County, Wisconsin for the fiscal year ended December 31, 2020. We encourage readers to consider the information presented here in conjunction with additional information that we have furnished in our letter of transmittal, which can be found on pages 8-11 of this report.

FINANCIAL HIGHLIGHTS

- The assets and deferred outflows of resources of the County exceeded its liabilities and deferred inflows of resources at the close of the most recent year by \$332,488,862 (net position). Of this amount, \$96,847,048 (unrestricted net position) may be used to meet the County's ongoing obligations to citizens and creditors.
- The County's total net position increased by \$17,918,848, or 5.7%. Several factors contributed to the overall increase as follows:

| Description | | Amount |
|---|------|-------------|
| Long term debt repaid and long term debt issued are reflected on the fund financial statements as revenues and expenses. They are not revenues or expenses in the statement of net assets. | | |
| Long term debt repaid. | \$ | 7,889,146 |
| Long term debt issued. | | (8,900,000) |
| Capital asset acquisitions are reported as expenditures in governmental funds however they are not expensed in the statement of activities. In the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount of capital acquisitions recorded in governmental funds, which is recorded as expense in the fund statements but capitalized and depreciated in the statement of net activities. | | 11,557,516 |
| Net book value of capital asset disposals is an expense in the statement of activities, | | (622,195) |
| Depreciation of capital assets is an expense in the statement of activities, yet there is no tax or other revenue to offset this expense because it is not a cash outflow. The effect of this is a reduction of net position. | | (6,088,835) |
| Human Services revenues in the statement of activities do not provide current financial resources and are not reported as revenues in the fund statement. This is the amount by which revenue at the end of year (\$364,830) was lower than revenue at the beginning of the year (\$377,398). | | (12,568) |
| The net revenues for certain activities of internal service funds are reported with governmental activities. This is the amount by which the increase in net position (\$1,917,091) increased by the amount allocated to business-type activities (\$307,355). | | 1,609,736 |
| Expenditures that are currently not available are deferred in the fund statements. This is the amount by which deferred expenditures and net pension liabilities (assets) at the end of year (\$3,483,124) is lower than deferred expenditures and net pension liabilities (assets) at the beginning of the year (\$3,785,364). | | (302,239) |
| Expenditures that are currently not available are deferred in the fund statements. This is the amount by which deferred expenditures and net WRS Life liabilities (assets) at the end of year (\$2,355,189) is higher than deferred expenditures and net WRS Life liabilities (assets) at the beginning of the year (\$2,088,663). | | (266,526) |
| Expenditures that are currently not available are deferred in the fund statements. This is the amount by which deferred outflows and net OPEB liabilities (assets) at the end of year (\$4,845,879) is lower than deferred outflows and net OPEB liabilities (assets) at the beginning of the year (\$4,857,030). | | 11,151 |
| Revenues that are currently not available are deferred in the fund statements. This is the amount by which deferred revenue at the end of year (\$2,566,600) is lower than deferred revenue at the beginning of the year (\$2,961,551). | | (394,951) |
| Governmental funds surplus generated during 2020 represents an increase in net position on the statement of net position. | | 12,348,194 |
| Proprietary funds surplus generated during 2020 represents an increase in net position on the statement of net position. | | 1,298,571 |
| Governmental funds do not recognize expenses that do not require the use of current financial resources. These are generally long-term liabilities. The statement of activities does include these expenses. | | (208,152) |
| Total increase / (decrease) in overall net position | \$ 1 | 17,918,848 |

Management's Discussion and Analysis December 31, 2020

- As of the close of the current year, the County's governmental activities reported combined ending net position of \$215,916,908. Approximately 23.3% of this total amount, \$50,286,597, is available for spending at the County's discretion (*unrestricted net position*).
- At the end of the current year, unassigned fund balance for the general fund was \$43,524,459, or 41.3% of total general fund and special revenue fund expenditures.
- The County's total general-obligation debt increased by \$3,002,020, or 8.5%, during the current year. There were no refinancing transactions done during 2020.
- There were new general obligation notes of \$11,500,000 issued on November 10, 2020 to finance capital
 projects including the Winnebago County courthouse window replacements and elevator upgrades, Parks
 dump truck and front-end loader, UWO-Fox Cities child care center and parking lot reconstruction, Airport
 terminal replacement, aviation park taxiway, and highway road resurfacing and reconstruction projects.

OVERVIEW OF THE FINANCIAL STATEMENTS

This discussion and analysis is designed to be an introduction to the Winnebago County, Wisconsin's basic financial statements. The County's basic financial statements comprise three components: 1) the government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

<u>Government-wide financial statements:</u> The government-wide financial statements are designed to provide readers with a broad overview of the County's finances, in a manner similar to a private-sector business. The government-wide statements are made up of the statement of net position and the statement of activities.

The statement of net position presents information on all of the County's assets, liabilities and deferred outflows/ inflows of resources, with the difference reported as net position. Over time, increases or decreases in net position will serve as a useful indicator of whether the financial position of the County is improving or deteriorating.

The statement of activities presents information showing how the County's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. This means, some revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes, earned but unused vacation leave and unused sick leave that is paid out upon termination or retirement).

Both of the government-wide financial statements distinguish functions of the County that are principally supported by taxes and intergovernmental revenues from those functions that are intended to recover all or a significant portion of their costs through user fees and charges. The governmental activities (those supported by taxes and intergovernmental revenues) of the County include general government; public safety; health and human services; culture, education, and recreation; and conservation and development. The business-type activities (those supported by user fees) of the County include an airport, a solid waste facility, a nursing home, and a highway operation.

The government-wide financial statements include not only the County itself (known as the primary government), but also a legally separate component unit known as the Housing Authority. Financial information for this component unit is reported separately from the financial information presented for the primary government itself.

The government-wide financial statements can be found on pages 38-40 of this report.

Management's Discussion and Analysis December 31, 2020

<u>Fund financial statements:</u> A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The County uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the County can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

Governmental funds: Governmental funds are used to account for essentially the same functions as governmental activities in the government-wide financial statements; however, the governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. This comparison may help readers better understand the long-term impact of a government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The County maintains four individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balance for the general fund and human services fund, both of which are considered major funds. Data from the other two funds are combined into a single, aggregated presentation. Individual fund data for each of these non-major funds is provided in the combining statements found elsewhere in this report.

The County adopts annual appropriation budgets for all of its governmental type funds. Budgetary comparison statements have been provided for these funds to demonstrate compliance with these budgets.

The basic governmental fund financial statements can be found on pages 41-46 of this report.

Proprietary funds: The County maintains two different types of proprietary funds. Enterprise funds are used to report the same functions presented as business-type activities in the government-wide financial statements. The County maintains enterprise funds for its airport, solid waste facility, nursing home, and highway operations. Internal service funds are used to accumulate and allocate costs internally among various functions. The County uses internal service funds to account for its general services operations and its self-funded insurance for worker's compensation, property and liability, and health and dental insurance. Because all of these services predominantly benefit governmental rather than business-type functions, they have been included within governmental activities in the government-wide financial statements. All internal service funds are combined into a single, aggregated presentation in the proprietary fund financial statements. Individual fund data for the internal service funds are provided in the form of combining statements elsewhere in this report.

The basic proprietary fund financial statements can be found on pages 47-52 of this report.

Fiduciary funds: Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are not reflected in the government-wide financial statements because the resources of these funds are not available to support the County's own programs. The accounting used in fiduciary funds is much like that used for proprietary funds.

The basic fiduciary fund financial statements can be found on pages 53-54 of this report.

Management's Discussion and Analysis December 31, 2020

<u>Notes to the financial statements:</u> The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found on pages 55-113 of this report.

<u>Other information:</u> In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information regarding budget to actual data. Required supplementary information can be found on pages 114-125 of this report.

The combining statements referred to in connection with non-major governmental funds; individual enterprise funds and internal service funds are presented immediately following the required supplementary information. Combining and individual fund statements and schedules can be found on pages 126-199 of this report.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

As discussed earlier, net position may serve over time as a useful indicator of a government's financial position. The assets and deferred outflows of resources of the County exceeded liabilities and deferred inflows of resources by \$332,488,862 at the close of 2020.

Winnebago County's Net Position (Amounts Expressed in \$1,000's)

Management's Discussion and Analysis December 31, 2020

By far, the largest portion of the County's net position, 65.5%, reflects its investment in capital assets (E.g., land, buildings, improvements, equipment, and infrastructure); less any related debt used to acquire those assets that is still outstanding. The County uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the investment in capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

An additional portion of the County's net position, 5.6%, represent resources that are subject to external restrictions on how they may be used. The remaining balance of unrestricted net position, \$96,814,328, may be used to meet the government's ongoing obligations to citizens and creditors.

At the end of the current fiscal year, the County is able to report positive balances in all three categories of net position, both for the government as a whole, as well as for its separate governmental and business-type activities.

Governmental activities: Governmental activities increased the County's net position by \$16,620,277. Key elements of the increase are as follows:

Winnebago County's Changes in Net Position

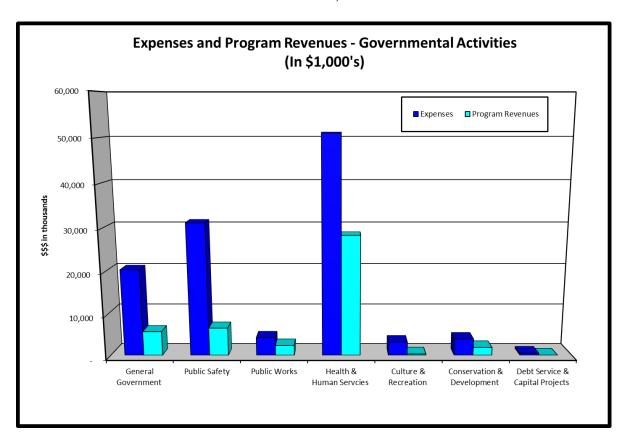

(Amounts Expressed in \$1,000)

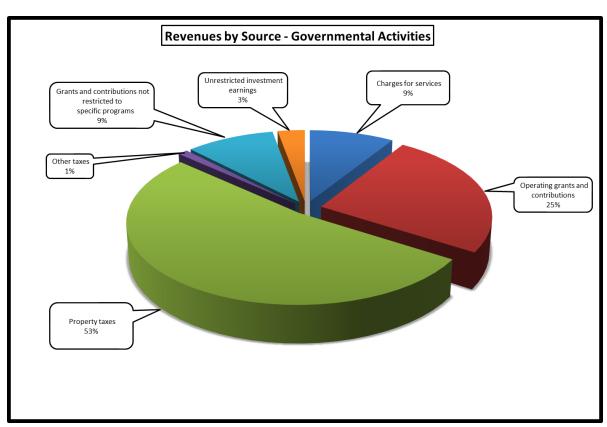

| | Governmental Activities | | | Business-type Activities | | | | | Total | | Total | |

Management's Discussion and Analysis December 31, 2020

| Description | | Amount |
|---|-------------|-------------|
| Long term debt repaid and long term debt issued are reflected on the fund financial statements as revenues and expenses. They are not revenues or expenses in the statement of net assets. | | |
| Long term debt repaid. | \$ | 7,889,146 |
| Long term debt issued. | | (8,900,000) |
| Capital asset acquisitions are reported as expenditures in governmental funds however they are not expensed in the statement of activities. In the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount of capital acquisitions recorded in governmental funds, which is recorded as expense in the fund statements but capitalized and depreciated in the statement of net activities. | | 11,866,774 |
| Net book value of capital asset disposals is an expense in the statement of activities, | | (931,453) |
| Depreciation of capital assets is an expense in the statement of activities, yet there is no tax or other revenue to offset this expense because it is not a cash outflow. The effect of this is a reduction of net position. | | (6,088,835) |
| Human Services revenues in the statement of activities do not provide current financial resources and are not reported as revenues in the fund statement. This is the amount by which revenue at the end of year (\$364,830) was lower than revenue at the beginning of the year (\$377,398). | | (12,568) |
| The net revenues for certain activities of internal service funds are reported with governmental activities. This is the amount by which the increase in net position (\$1,917,091) increased by the amount allocated to business-type activities (\$307,355). | | 1,609,736 |
| Expenditures that are currently not available are deferred in the fund statements. This is the amount by which deferred expenditures and net pension liabilities (assets) at the end of year (\$3,483,124) is lower than deferred expenditures and net pension liabilities (assets) at the beginning of the year (\$3,785,364). | | (302,239) |
| Expenditures that are currently not available are deferred in the fund statements. This is the amount by which deferred expenditures and net WRS Life liabilities (assets) at the end of year (\$2,355,189) is higher than deferred expenditures and net WRS Life liabilities (assets) at the beginning of the year (\$2,088,663). | | (266,526) |
| Expenditures that are currently not available are deferred in the fund statements. This is the amount by which deferred outflows and net OPEB liabilities (assets) at the end of year (\$4,845,879) is lower than deferred outflows and net OPEB liabilities (assets) at the beginning of the year (\$4,857,030). | | 11,151 |
| Revenues that are currently not available are deferred in the fund statements. This is the amount by which deferred revenue at the end of year (\$2,566,600) is lower than deferred revenue at the beginning of the year (\$2,961,551). | | (394,951) |
| Proprietary funds surplus generated during 2020 represents an increase in net position on the statement of net position. | | 12,348,194 |
| Governmental funds do not recognize expenses that do not require the use of current financial resources. These are generally long-term liabilities. The statement of activities does include these expenses. | | (208,152) |
| Total increase / (decrease) in governmental activities net position | \$ 1 | 16,620,277 |

Management's Discussion and Analysis December 31, 2020

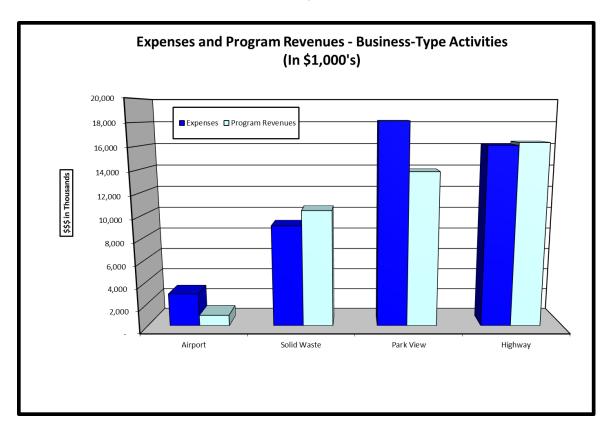

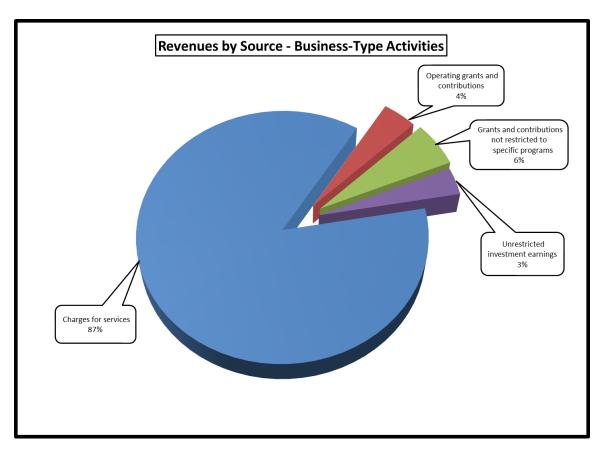

Management's Discussion and Analysis December 31, 2020

<u>Business-type activities</u>: Business-type activities increased the County's net position by \$1.298.571. Key elements of this increase are as follows:

- The Airport Fund's net position decreased by \$1,103,219. A deficit of \$1,543,193 was budgeted for the year, creating a favorable difference of approximately \$440,000. Expenses were related to the cancelation of the Experimental Aircraft Association (EAA) Airventure due to COVID-19. Depreciation was lower this year by \$184,000 because several assets have been fully depreciated.
- The Solid Waste Fund's net position increased by \$2,880,061. A surplus of \$861,017 was budgeted for the year, creating a favorable difference of approximately \$2,019,000. Operating revenues exceeded budget by \$886,141, mostly from the tipping fees coming in over budget. Investment income and mark to market on investments came in \$674,801 higher than anticipated. Rates were at their peak in 2019 which generated excess interest income due to the laddering of investments. There were also adjustments made for the Sunnyview Landfill and Sludge long-term liability accounts, which were favorable on the expenditure side.
- Park View Health Center's net position decreased by \$1,039,746. A deficit of \$403,000 was budgeted
 for the year, creating an unfavorable variance of \$636,746. Revenues came in higher than expected
 with operating revenues exceeding budget by \$390,417. The revenue surplus was offset by the savings
 of almost \$757,624 in labor and fringes from vacancies, turnover and benefit elections. Other
 operating expenses were under budget by \$219,062 for expenses directly related to the lower census
 created by the COVID-19 pandemic.
- The Highway Department's net position increased by \$254,120. A surplus of \$362,815 was budgeted for the year, creating a favorable variance of \$108,695. The majority of this difference was due to additional work done for the state, county and local towns/municipalities, which resulted in economies of scale allowing the highway department to operate its equipment below the state established equipment rates yielding revenues in excess of expenditures.
- The remaining amount of the change in net position \$307,355 is the amount of internal service funds activity that is reflected in the enterprise funds.

Management's Discussion and Analysis December 31, 2020

Management's Discussion and Analysis December 31, 2020

FINANCIAL ANALYSIS OF THE GOVERNMENT'S FUNDS

As indicated earlier, the County uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental funds

The focus on the County's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the County's financial requirements. Note how unassigned fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

As of December 31, 2020, the County's governmental funds reported combined ending fund balances of \$63,710,528, an increase of \$12,348,194 in comparison with the prior year. Approximately 67.3% of this total - \$42,902,303 - constitutes unassigned fund balance, which is available for spending at the government's discretion. The remainder of fund balance is reserved to indicate that it is not available for new spending because it has already been committed as follows:

- 1) Non-liquid delinquent property taxes and special assessments: \$3,750,441,
- 2) Prepayments that benefit periods beyond the end of the current year: \$385,622,
- 3) Non-liquid industrial development loans receivable: \$135,547,
- 4) Unspent bond proceeds: \$1,740,577,
- 5) For other restricted purposes: \$260,945,
- 6) To pay debt service: \$3,452,223,
- 7) For prior year commitments: \$1,000,608,
- 8) Assigned to special projects, economic development, subsequent year's expenditures and prior years appropriations: \$10,082,262.

General Fund: The general fund is the chief operating fund of the County. At the end of the current fiscal year, unassigned fund balance of the general fund was \$43,524,459, while total fund balance is \$57,642,997. As a measure of the general fund's liquidity, it may be useful to compare both unassigned fund balance and total fund balance to expenditures. Unassigned fund balance represents 70.4% of total general fund expenditures, while total fund balance represents 75.5% of that same amount. The fund balance of the county's general fund increased by \$12,094,772 during the current fiscal year. This represents an increase of 26.6%. Reasons for the net increase in fund balance are as follows:

The human services fund needed \$5.4 million less of tax levy than was budgeted. As a result, these funds remained in the General Fund at the end of the year. This accounts for a large part of the change to the general fund balance.

Management's Discussion and Analysis December 31, 2020

Some departments spending was significantly under in 2020 helping to contribute to the surplus:

- <u>Facilities</u> \$1,065,446 under budget. Labor costs were under budget by \$294,066 primarily due to having the assistant director position vacant for six months and four custodial crew positions vacant for most of the year. Other operating expenditures including building, equipment and grounds maintenance, building repairs, professional services, and snow removal were considerably under budget by \$727,139. In some cases, projects were not completed by the end of the year and were carried over to 2021. Utilities came in \$222,000 under budget due to milder weather reduced staffing due to COVID and energy efficiency improvements. Contracted services were under budget by \$199,000 due to deferred projects and more favorable bids due to COVID.
- <u>Miscellaneous Unclassified</u> \$1,662,372 under budget. The majority of the surplus resulted from the CARES
 Routes to Recovery grant. The County was reimbursed approximately \$1,150,000 for already budgeted wages
 for public safety, health and human services employees that responded to the COVID pandemic.
- Sheriff \$2,660,866 under budget. Labor costs were under budget by \$1,598,803. Of this amount wages were approximately \$1,080,000 under budget due to National Guard activation of six agency members and special events being canceled because of COVID-19. This in turn resulted in fringes coming in \$518,000 lower than anticipated fringe benefit rates. Capital outlay was under by \$310,476 due to a budget carryover to fiscal year 2021 for the purchase of a marine unit and other items from the ALERT grants. Other operating expenditures were under budget \$737,763 from telephone, uniform tools allowance, professional supplies, vehicle repairs, equipment repairs, professional services, food service and other contract services. Some explanations are as follows: due to COVID-19 special events were cancelled and there were reduced calls for service which resulted in a savings of approximately \$77,000 throughout many of the operating accounts. In addition, motor fuel was under budget by almost \$94,000 because the average price per gallon came in at \$1.71 versus the \$2.95 budgeted. The average daily prisoner (ADP) rate was lower than expected which resulted in approximately \$119,000 of savings for food service and professional services. Roughly \$330,700 of the overall savings came from other contracted services due to a renegotiation of the county-wide subscriber radio contract.
- <u>Courts</u> \$480,419 under budget. Labor costs were under budget by \$161,501 due to several positions being open and hard to fill and courts did not need bailiffs due to COVID-19. Capital outlay was under budget by \$29,833 because work was cut short and items were not able to be installed. Other operating expenditures were under budget by \$275,672 mostly due to fewer appointed attorneys and fewer doctors needed for ME (mental commitment) cases.
- <u>Public Health</u> \$2,174,670 under budget. Labor costs were under budget by \$821,321. The health department was reimbursed from the CARES Routes to Recovery grant for approximately \$500,000 for already budgeted wages and fringe for public health employees that responded to the COVID pandemic, the remainder was due to position vacancies. Other operating expenditures were under budget by \$1,284,829. An additional \$1,200,000 was received for COVID relief, thus reducing other operating expenditures due to the reassignment to COVID and suspension of other direct services.
- Parks \$658,631 under budget. Labor costs were under budget due to events not taking place throughout the
 year due to COVID-19. Capital outlay was under budget by \$345,980 due to the Asylum Point bridge and
 Neenah dog park projects that were carried over to 2021. Other operating expenditures were under budget by
 \$223,402 from less events taking place at the Expo Center due to COVID-19.

Management's Discussion and Analysis
December 31, 2020

Human Services (Special Revenue) Fund: The Human Services Fund has a total fund balance of \$902,990. Of this amount, \$75,770 (or 8.4%) represents prepayments that benefit periods beyond the end of the current year. The balance of \$827,220 represents assigned fund balance. Of this, \$800,000 was due to less tax levy needed than was budgeted, however, transferring this at year-end would have put Human Services into a negative cash position, so this amount will be transferred to the general fund in 2021. Total fund balance of the Human Services Fund increased by \$798,988 from the prior year.

Winnebago County's practice is to maintain a minimal fund balance in the Human Services Fund because of its need for tax levy support. As a result, the tax levy that is not needed is left in the General Fund at the end of the year, unless it would create a negative cash position for Human Services.

Proprietary funds

The County's proprietary funds provide the same type of information found in the government-wide financial statements, but in more detail.

Unrestricted net position for these funds can be seen in the following table.

| | Airport | | | olid Waste | Park View | Highway |
|--|---------|-----------|------|------------|-------------------|-----------------|
| Unrestricted Net Position - 2019 | \$ | 2,908,266 | \$ | 29,014,016 | \$ 10,737,823 | \$ 2,510,193 |
| Unrestricted Net Position - 2020 | | 2,664,518 | | 32,267,007 | 7,779,625 | 1,601,385 |
| Total Growth(Decline) in Unrestricted Net Position | \$ | (243,748) | _\$_ | 3,252,991 | \$ (2,958,198) | \$ (908,808) |

The Airport Fund's unrestricted net position decreased by \$243,748. There was a net deficit of \$1,103,219 for 2020. In 2019 \$2,000,000 was transferred from the general fund to help fund the new general aviation terminal, this created a difference in year over year transfer-ins from the general fund. In addition, the Wisconsin Retirement System (WRS) was over 100% funded in 2020, which created a net pension asset. When there is a net pension asset, there is a corresponding restriction of net position, which was \$86,888. In 2019 WRS was under funded, which created a net pension liability, and restricted \$0 of the net position for pensions.

The Solid Waste Fund's unrestricted net position increased by \$3,252,991. There was a net surplus of 2,880,061 for 2020. The majority of this excess was due to the tipping fees coming in over budget.

Park View Health Center's unrestricted net position decreased by \$2,958,198. There was a net deficit of \$1,039,746 for 2020. The other reason for this decrease is that the Wisconsin Retirement System (WRS) was over 100% funded in 2020, which created a net pension asset. When there is a net pension asset, there is a corresponding restriction of net position, which was \$1,792,022. In 2019 WRS was under funded, which created a net pension liability, and restricted \$0 of the net position for pensions.

The Highway Department's unrestricted net position decreased by \$908,808. There was a net income of \$254,120 for 2020. The main reason for this decrease is that the Wisconsin Retirement System (WRS) was over 100% funded in 2020, which created a net pension asset. When there is a net pension asset, there is a corresponding restriction of net position, which was \$774,667. In 2019 WRS was under funded, which created a net pension liability, and restricted \$0 of the net position for pensions.

Management's Discussion and Analysis
December 31, 2020

GENERAL FUND BUDGETARY HIGHLIGHTS

Differences between the original budget and the final amended budget amounted to a net increase in appropriations of approximately \$1,440,590 and can be briefly summarized as follows:

- \$1,357,381 carryovers of prior year appropriations
- \$25,000 for roof repairs at the UWO-Fox Cities campus
- \$24,410 for the Grundman Park / Osh-O-Nee boat landing master plan
- \$21,919 revenue adjustment for the UWO-Fox Cities campus
- \$150,000 for Information Systems to perform fiber work for County Highway A
- \$(94,282) transfer to the capital projects fund for the Sheriff's Office NextGen 911 project.

Revenues versus the budgetary estimates - explanation:

During this year, revenues were under budget by \$805,627. This represents a variance of .8% from budget. A few items to note are as follows:

- Tax revenues were over budget by \$540,631. Interest on delinquent property taxes was up by \$83,557 due to
 delinquencies being paid. Also, property taxes were up \$328,867 because of the new property tax aid the
 County receives through the levy. Lastly, real estate transfer tax was up \$128,812 over budget due to more
 real estate transaction.
- Intergovernmental revenues were under budget by \$1,630,543. The majority of this was due to Public Health coming in under budget by \$1,330,171. The main reason for this variance is because of grants. These are reimbursement grants, and the County does not receive the money until the expense is incurred. Some projects were not done in 2020 due to the COVID-19 pandemic, and were carried over to 2021.
- Charges for services provided to public revenues were under budget by \$769,383. The Sheriff's Office was
 under budget by \$652,408, reasons for this miss is due to special events being cancelled and the Huber
 program being suspended due to COVID-19, The Parks department was under budget by \$281,641 due to
 events being cancelled at the Exposition center due to the COVID-19 pandemic. To off-set some of these
 losses, the Register of Deeds came in \$197,125 over budget due to the boom in real estate transactions in
 2020.
- Investment income was over budget by \$1,147,189. Higher interest rates obtained in the stronger market in previous years accounted for the majority of this overage. The investments are laddered for 6 years, and are maturing at a higher than anticipated rate of return.

Expenditures versus the budgetary estimates – explanation:

Actual operating expenditures were less than budget by \$11,772,623. Some of the main reasons include:

General Government - \$3,503,233 under budget

Information Systems – \$424,367 under budget: Labor costs are under budget by \$57,845 due to multiple staff changes and taking time to fill the vacancies. Capital outlay was under by \$167,739 due to the carryover of the

Management's Discussion and Analysis
December 31, 2020

County Highway A fiber project into 2021. Other operating expenditures are under by \$166,201 because many information systems expenses were reimbursed by COVID-19 CARES grant monies.

Facilities – \$1,065,446 under budget: Labor costs were under budget by \$294,066 primarily due to having the assistant director position vacant for six months and four custodial crew positions vacant for most of the year. Other operating expenditures including building, equipment and grounds maintenance, building repairs, professional services, and snow removal were considerably under budget by \$727,139. In some cases, projects were not completed by the end of the year and were carried over to 2021. Utilities came in \$222,000 under budget due to milder weather reduced staffing due to COVID and energy efficiency improvements. Contracted services were under budget by \$199,000 due to deferred projects and more favorable bids due to COVID-19.

Miscellaneous Unclassified – \$1,662,372 under budget: Other Operating expenditures are under by \$1,561,650. The majority of the surplus resulted from the CARES Routes to Recovery grant. The County was reimbursed approximately \$1,150,000 for already budgeted wages for public safety and human services employees that responded to the COVID-19 pandemic.

Public Safety - \$3,458,894 under budget

Sheriff – \$2,660,866 under budget: Labor costs were under budget by \$1,598,803. Of this amount wages were approximately \$1,080,000 under budget due to National Guard activation of six agency members and special events being canceled because of COVID-19. This in turn resulted in fringes coming in \$518,000 lower than anticipated fringe benefit rates. Capital outlay was under by \$310,476 due to a budget carryover to fiscal year 2021 for the purchase of a marine unit and other items from the ALERT grants. Other operating expenditures were under budget \$737,763 from telephone, uniform tools allowance, professional supplies, vehicle repairs, equipment repairs, professional services, food service and other contract services. Some explanations are as follows: due to COVID-19 special events were cancelled and there were reduced calls for service which resulted in a savings of approximately \$77,000 throughout many of the operating accounts. In addition, motor fuel was under budget by almost \$94,000 because the average price per gallon came in at \$1.71 versus the \$2.95 budgeted. The average daily prisoner (ADP) rate was lower than expected which resulted in approximately \$119,000 of savings for food service and professional services. Roughly \$330,700 of the overall savings came from other contracted services due to a renegotiation of the county-wide subscriber radio contract.

Courts – \$480,419 under budget: Labor costs were under budget by \$161,501 due to several positions being open and hard to fill due and courts did not need bailiffs to COVID-19. Capital outlay was under budget by \$29,833 because work was cut short and items were not able to be installed. Other operating expenditures were under budget by \$275,672 mostly due to few appointed attorneys and few doctors needed for ME (mental commitment) cases.

District Attorney – \$177,156 under budget: Labor costs were down by \$106,913 because court cases were limited in 2020 due to COVID-19. Other operating expenditures were under budget by \$61,808 due to carryover of grants into 2021.

Public Works - \$505,979 under budget

This area consists of county road maintenance, which accounts for all of the variance. Maintenance expenditures were lower primarily because they were offset by an increase in work load resulting from capital projects, project and maintenance requests from the Wisconsin Department of Transportation, and local governments. As workload increases for the department, resources are re-directed to provide requested services to customers and completing capital projects. Maintenance work completed was prioritized to focus on needs that are at an elevated level of importance and lower priority maintenance activities were postponed to be completed later. However, \$379,311 of this amount was carried forward to the 2021 budget.

Management's Discussion and Analysis
December 31, 2020

Health & Human Services - \$2,513,732 under budget

Public Health – \$2,174,670 under budget: Labor costs were under budget by \$821,321. The health department was reimbursed from the CARES Routes to Recovery grant for approximately \$500,000 for already budgeted wages and fringe for public health employees that responded to the COVID pandemic, the remainder was due to position vacancies. Other operating expenditures were under budget by \$1,284,829. An additional \$1,200,000 was received for COVID relief, thus reducing other operating expenditures due to the reassignment to COVID and suspension of other direct services.

Veterans – \$104,178 under budget: Labor costs were under budget by \$48,244 due to employee turnover and retirements. Other operating expenditures were under by \$47,502. Cemetery expenses were down this year, because the department has been working with the cemeteries the last couple years to correct the perpetual care fees being charged to the County. In addition, veteran's relief assistance was down due to other sources of funding becoming available due to the COVID-196 pandemic.

Child Support – \$234,884 under budget: Labor costs were under budget by \$192,274 due to vacancies in the department caused by retirements and other turnover.

Culture, Education and Recreation - \$1,031,505 under budget

Parks Department - \$658,631 under budget: The largest area was capital outlay, which was under budget by \$345,980 because of budget carryovers to 2021 for the Asylum bridge reconstruction and the northern dog park. The other cause was due to other operating expenditures being under by \$223,402 due to less events taking place at the Expo Center due to COVID-19.

University Extension – \$109,665 under budget: Other operating expenditures were down by \$79,478 due to less programs being held in 2020 due to the COVID-19 shut down. In addition, travel expenses came in under budget by \$22,885 because most meetings went virtual throughout 2020 due to the COVID-19 pandemic.

Conservation and Development - \$759,280 under budget

Land and Water Conservation – \$466,798 under budget: Other operating expenditures are under budget by \$424,753. This is due to approximately \$265,052 being carried over to the 2021 budget. In addition, there were larger grants not yet received that expenditures were budgeted for.

Register of Deeds, Planning, Economic Development, Land Records and Property Lister consist of small variances that accounted for the remaining amounts under budget.

CAPITAL ASSETS AND DEBT ADMINISTRATION

<u>Capital assets</u>: The County's investment in capital assets for its governmental and business type activities as of December 31, 2020 amounts to \$255,774,256 (net of accumulated depreciation). This investment in capital assets includes land, buildings, improvements, machinery and equipment, roads, highways, and bridges. The total increase in the government's investment in capital assets for the current fiscal year was \$4,422,673, or 1.8%, which is a 2.7% increase for governmental activities and a 0.6% decrease for business-type activities. Major capital asset events during the current fiscal year included the following:

Management's Discussion and Analysis December 31, 2020

Governmental Activities:

The total change in capital assets for the governmental activities was an increase of \$4,846,485.

Major assets placed in service during 2020:

- The Facilities department constructed and furnished a new CBRF (Community Based Residential Facility) Crisis Center for Human Services in the amount of \$3,644,544.
- The Facilities department constructed a modular home for \$172,253 to house Section 980 sex offenders, installed a new roof on the Coughlin building for \$134,724 and improved the Human Services parking lot for \$149,812.
- UWO-Fox Cities campus performed HVAC systems repairs, storage building repairs and the south parking lot repair in a total amount of \$142,303.
- The Parks department purchased three new vehicles for \$122,410, purchased a new loader for \$146,850, a new dump truck with plow and attachments for \$213,124, a floor scrubber for \$5,133 and the soccer complex lighting for \$179,970.
- Emergency Management purchased a mobile command post vehicle for \$448,287.
- Information Systems purchased a vehicle for \$22,960 and servers for \$83,950.
- The Sheriff's office purchased ten fleet vehicles for \$438,107, purchased sanitizing robots and systems for \$96,069, radios, and cameras and SWAT equipment for \$91,580.
- Infrastructure increased by \$4,618,448 for paving of roads.

Major assets retired during 2020:

- There were no major dispositions during the year, except for the removal of replaced road infrastructure \$705,692.
- Total dispositions were approximately \$966,432 consisting of old vehicles. Most of these vehicles were fully depreciated and at the end of their useful lives.

Other changes to capital assets:

- Many of the assets placed in service during 2020 were from construction in process from prior years.
 Thus, the increase to the capital asset has a partial decrease to construction in process. They offset each other so don't effect the total change to capital assets.
- The change in accumulated depreciation during the year would usually reduce total capital assets as it is part of total capital assets above.

Management's Discussion and Analysis December 31, 2020

Business Type Activities:

The total change in capital assets (net of depreciation) for the business type activities was a net decrease of approximately \$423,811.

Major assets placed in service during 2020:

- The Solid Waste Department purchased a loader for \$254,386, replaced engine #2 for \$801,528, upgraded the SCADA system for \$119,450 and purchased the Snell Rd recloser for \$218,271.
- Park View health care center purchased two full body lifts with scales for \$7,015, two bariatric sit-to-stand lifts for \$10,476, two disinfection robots for \$80,586 and a combination oven / steamer for \$14,600.
- The Highway Department annually replaces road maintenance vehicles, construction and snow plowing vehicles and other road maintenance equipment costing around \$1 million per year as part of an equipment rotation program. Approximately \$1 million of old vehicles are traded in or sold.

Other changes to capital assets:

- Many of the assets placed in service during 2020 were from construction in process from prior years. This results in a shift from construction in process to a capital asset category such as buildings, equipment, improvements and other. The result is that there may not be a large overall changes to capital assets in total.
- The change in accumulated depreciation during the year would usually reduce total capital assets as it is part of total capital assets.

Additional information on the County's capital assets can be found in the footnotes on pages 79-81 of this report.

Management's Discussion and Analysis December 31, 2020

Long-term debt: At the end of the current fiscal year, the County had total bonded debt outstanding of \$38,174,048 backed by the full faith and credit of the County.

| | | Win | | ago Count General O Amounts Expi | - bligatio | n Debt | • | ebt | | | | |
|---|----|----------|--------|--|--------------------------|--------|----|-------|--------------|----|--------|--|

| Debt issue costs | | 30,379 | | | |
| Total 2020 Bonding | \$ | 11,500,000 | | | |

Winnebago County maintains an Aa1 rating from Moody's for general obligation debt.

State statutes limit the amount of general obligation debt a governmental entity may issue to 5 percent of its total equalized valuation. The current debt limitation for the County is \$744,661,325, which is significantly in excess of its outstanding general obligation debt of \$38,174,048. The County has a debt service fund balance of \$3,452,223.

Additional information on the County's long-term debt can be found in the footnotes on pages 83-86 of this report.

Management's Discussion and Analysis December 31, 2020

ECONOMIC FACTORS AND NEXT YEAR'S BUDGETS AND RATES

- At the end of 2020 the US unemployment rate was 6.7%, Wisconsin's rate was 4% and Winnebago County's rate was 5.4%. These rates are higher than last year due to the shut-down for the COVID-19 pandemic.
- Winnebago County continues to be a very affordable area to live with median home prices at \$167,000 compared to the Wisconsin median price of \$214,000 and US average of \$268,000.
- Home sales in Winnebago County increased slightly from 2,326 in 2019 to 2,353 in 2020.
- The labor force in Winnebago County remains stable at around 91,236 persons.
- Non-farm employment decreased to 94,000 jobs, versus 97,900 in 2019.
- Areas with the highest concentration of jobs are in manufacturing, trade, transportation and utilities, professional and business services, education and health care, and government.
- Growth in net new construction has remained slow at around 1.455% which limits increases in spending.

These factors were considered in preparing the County's budget for the 2021 fiscal year.

In 2020, the World Health Organization declared the spread of Coronavirus Disease (COVID-19) a worldwide pandemic. The COVID-19 pandemic is having significant effects on global markets, supply chains, businesses, and communities. Specific to Winnebago County, COVID-19 may impact various parts of its 2020 operations and financial results including, but not limited to, costs for emergency preparedness and shortages of personnel. Management believes Winnebago County is taking appropriate actions to mitigate the negative impact. However, the full impact of COVID-19 is unknown and cannot be reasonably estimated as these events occurred subsequent to year-end and are still developing. These events were considered in preparing the County's budget for the 2021 fiscal year.

Management's Discussion and Analysis December 31, 2020

Section 66.0602 Local Levy Limits:

- 1. Except as provided in subs. (3), (4), and (5), no political subdivision may increase its levy in any year by a percentage that exceeds the political subdivision's valuation factor. The valuation factor is equal to the percentage change in the political subdivision's January 1 equalized value due to new construction less improvements removed between the previous year and the current year.
- 2. Debt service continues to be exempt from the levy limit freeze for all debt issued prior to July 1, 2005. Debt issued after July 1, 2005 will also be exempt if certain conditions are met. One of those is that the governing body can approve the bond issue by a ¾ vote. Winnebago County has used this provision to exceed rate limits in the past and will likely continue to do so.
- 3. Penalties will be imposed upon any governing body that exceeds these levy limits.

The County may also exceed the limitation by holding a referendum (according to state statutes) authorizing the County Board to approve higher rates. The County may also exceed the rates if it increases the services it provides through a transfer of these services from another governmental unit.

The debt service tax rate limit was frozen at \$0.31. The debt service rate that was adopted with the 2019 budget is \$0.67. We have been able to exceed the limit by using the 2nd exception listed below:

Generally, referendum approval is required to issue unlimited tax general obligation debt, with the following exceptions:

- Refunding debt issues
- Approval by the County Board by a vote of 3/4ths of the full board.
- A reasonable expectation that the new debt can be accommodated within the existing tax rate
- Other exceptions as listed in State Statutes Section 67.045

The 2019 tax levy and rate are within the limitations contained in state laws.

Requests for Information

This financial report is designed to provide a general overview of Winnebago County, Wisconsin's finances for all those with an interest in the government's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the Office of the Finance Director, 112 Otter Avenue, P.O. Box 2808, Oshkosh, WI 54903-2808.

NOTES TO THE BASIC FINANCIAL STATEMENTS
December 31, 2020

NOTE I - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The basic financial statements of Winnebago County, Wisconsin have been prepared to conform with generally accepted accounting principles (GAAP) as applicable to governmental units. The accepted standard-setting body for establishing governmental accounting and financial reporting principles is the Governmental Accounting Standards Board (GASB). The significant accounting principles and policies utilized by the County are described below:

A. REPORTING ENTITY

This report includes all of the funds of Winnebago County. The reporting entity for the County consists of (a) the primary government, (b) organizations for which the primary government is financially accountable, and (c) other organizations for which the nature and significance of their relationship with the primary government are such that their exclusion would cause the reporting entity's financial statements to be misleading or incomplete. A legally separate organization should be reported as a component unit if the elected officials of the primary government are financially accountable to the organization. The primary government is financially accountable if it appoints a voting majority of the organization's governing body and (1) it is able to impose its will on that organization or (2) there is a potential for the organization to provide specific financial benefits to or burdens on the primary government. The primary government may be financially accountable if an organization is fiscally dependent on the primary government regardless of whether the organization has (1) a separately elected governing board, (2) a governing board appointed by a higher level of government, or (3) a jointly appointed board.

A legally separate, tax exempt organization should be reported as a component unit of a reporting entity if all of the following criteria are met: (1) the economic resources received or held by the separate organization are entirely or almost entirely for the direct benefit of the primary government, its component units, or its constituents; (2) the primary government is entitled to, or has the ability to otherwise access, a majority of the economic resources received or held by the separate organization; (3) the economic resources received or held by an individual organization that the specific primary government, or its component units, is entitled to, or has the ability to otherwise access, are significant to that primary government. Each discretely presented component unit is reported in a separate column in the government-wide financial statements (see note below for description) to emphasize that it is legally separate from the government. This report does not contain any blended component units.

DISCRETELY PRESENTED COMPONENT UNIT

Winnebago County Housing Authority

The government-wide financial statements include the Winnebago County Housing Authority ("Housing Authority") as a component unit. The Housing Authority is a legally separate organization. The board of the Housing Authority is appointed by the county board. Wisconsin Statutes provide for circumstances whereby the county can impose its will on the Housing Authority, and also create a potential financial benefit to or burden on the county. See Note III J. As a component unit, the Housing Authority's financial statements have been presented as a discrete column in the financial statements. Separately issued financial statements of the Winnebago County Housing Authority may be obtained from the Housing Authority's office.

NOTES TO THE BASIC FINANCIAL STATEMENTS
December 31, 2020

NOTE I - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont.)

B. GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS

Government-Wide Financial Statements

The statement of net position and statement of activities report information on all of the nonfiduciary activities of the County and its component unit. For the most part, the effect of interfund activities has been removed from these statements. The statements distinguish between governmental and business-type activities. Governmental activities generally are financed through taxes, intergovernmental revenues, and other nonexchange revenues. Business-type activities are financed in whole or in part by fees charged to external parties for goods or services. Likewise, the primary government is reported separately from certain legally separate component units for which the primary government is financially accountable.

The statement of activities demonstrates the degree to which the direct expenses of a given function are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function. The County does not allocate indirect expenses to functions in the statement of activities. Program revenues include 1) charges to customers or applicants who purchase, use or directly benefit from goods, services, or privileges provided by a given function or segment, and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function. Taxes and other items not included among program revenues are reported as general revenues rather than as program revenues.

FUND FINANCIAL STATEMENTS

Financial statements of the reporting entity are organized into funds, each of which is considered to be a separate accounting entity. Each fund is accounted for by providing a separate set of self-balancing accounts, which constitute its assets, liabilities, deferred outflows/inflows of resources, fund equity/net position, revenues, and expenditures/expenses.

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

Funds are organized as major funds or non-major funds within the governmental, proprietary, and fiduciary funds statements. An emphasis is placed on major funds within the governmental and proprietary categories. A fund is considered major if it is the primary operating fund of the County or meets the following criteria:

A. Total assets and deferred outflows of resources, liabilities and deferred inflows of resources, revenues, or expenditures/expenses of that individual governmental or enterprise fund are at least 10 percent of the corresponding total for all funds of that category or type, and

NOTES TO THE BASIC FINANCIAL STATEMENTS December 31, 2020

NOTE I - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont.)

B. GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS (cont.)

FUND FINANCIAL STATEMENTS (cont.)

- **B.** The same element of the individual governmental fund or enterprise fund that met the 10 percent test is at least 5 percent of the corresponding total for all governmental and enterprise funds combined.
- **C.** In addition, any other governmental or enterprise fund that the County believes is particularly important to financial statement users may be reported as a major fund.

The County reports the following major governmental funds:

Major Governmental Funds

General Fund – accounts for the County's primary operating activities. It is used to account for and report all financial resources not accounted and reported in another fund.

Human Services Special Revenue Fund – accounts for and reports the proceeds of specific revenue sources that are restricted or committed to expenditures of the Human Services programs. Financing is generally provided by federal and state grants, charges for services and the local tax levy.

The County reports the following major enterprise funds:

Major Enterprise Funds

Airport – accounts for operations of the regional airport.

Solid Waste Management – accounts for operations of the landfill and recycling operations.

Park View Health Center – accounts for operations of the County nursing home.

Highway – accounts for highway maintenance operations.

The County reports the following non-major governmental funds:

Non-Major Governmental Funds

Debt Service Fund – accounts for resources accumulated and payments made for principal and interest on long-term debt other than enterprise fund debt.

Capital Projects Fund – accounts for resources accumulated and payments for the following projects:

Mental Health Crisis Center

Courthouse Window Replacement

Sheriff Lobby Window Replacement

Courthouse Elevator Upgrade

Orrin King Masonry Work

Coughlin Roof Repair

DHS Oshkosh Parking Lot

Parks Soccer Complex Lighting

2019 Building Demolition

UWO-FC Child Care Center

UWO-FC South Parking Lot

CAD RMS Replacement

In addition, Winnebago County reports the following fund types:

Internal service funds are used to account for the financing of goods or services provided by one department or agency to other departments or agencies of Winnebago County, or to other governmental units, on a cost-reimbursement basis.

Self-Insurance – accounts for the risk of loss related to torts; theft of, damage to, or destruction of assets; errors and omissions; workers compensation; and health care of its employees.

General Services - accounts for the central printing, mailroom and microfilming services to all County departments.

Fiduciary funds are used to account for assets held by Winnebago County in a custodial capacity for individuals, private organizations, and/or other governmental units.

Litigant's Deposit- accounts for the receipt and disbursement of funds held by the County for individuals who are scheduled for court appearances.

Inmates's Deposit - accounts for the receipt and disbursement of monies held for the benefit of inmates at the County Jail.

Patient's Deposit - accounts for the receipt and disbursement of monies held for the benefit of patients at Park View Health Center

MEG Unit – accounts for the receipts and disbursements of funds for the Lake Winnebago Area Metropolitan Enforcement Group.

Post Retirement Health – accounts for the receipt and disbursements of funds for the retirees sick leave converted to be used to pay for health insurance premiums.

C. MEASUREMENT FOCUS, BASIS OF ACCOUNTING, AND FINANCIAL STATEMENT PRESENTATION

GOVERNMENT-WIDE FINANCIAL STATEMENTS

The government-wide statement of net position and statement of activities are reported using the economic resources measurement focus and the accrual basis of accounting. Under the accrual basis of accounting, revenues are recognized when earned and expenses are recorded when the liability is incurred or economic asset used. Revenues, expenses, gains, losses, assets, deferred outflows of resources, and liabilities, and deferred inflows of resources resulting from exchange and exchange-like transactions are recognized when the exchange takes place. Property taxes are recognized as revenues in the year for which they are levied. Taxes receivable for the following year are recorded as receivables and deferred inflows. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider are met. Unbilled receivables are recorded as revenues when services are provided.

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are charges between the Winnebago County's enterprise funds and various other functions of the government. Elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned.

FUND FINANCIAL STATEMENTS

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recorded when they are both measurable and available. Available means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. For this purpose, Winnebago County considers revenues including property taxes to be available if they are collected within 60 days of the end of the current fiscal period, except for the human service fund in which grant revenue is considered available if it is collected within 180 days of the end of the current fiscal period. Expenditures are recorded when the related fund liability is incurred, except for unmatured interest on long-term debt, claims, judgments, compensated absences, and pension expenditures, which are recorded as a fund liability when expected to be paid with expendable available financial resources.

Property taxes are recorded in the year levied as receivables and deferred inflows. They are recognized as revenues in the succeeding year when services financed by the levy are being provided.

Intergovernmental aids and grants are recognized as revenues in the period Winnebago County is entitled to the resources and the amounts are available. Amounts owed to Winnebago County which are not available are recorded as receivables and unearned revenues. Amounts received prior to the entitlement period are also recorded as deferred revenues.

NOTES TO THE BASIC FINANCIAL STATEMENTS December 31, 2020

NOTE I – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont.)

C. MEASUREMENT FOCUS, BASIS OF ACCOUNTING, AND FINANCIAL STATEMENT PRESENTATION (cont.)

FUND FINANCIAL STATEMENTS (cont.)

Delinquent special assessments being held for collection by the county are reported as receivables and nonspendable fund balance in the general fund.

Revenues susceptible to accrual include property taxes, miscellaneous taxes, public charges for services, special assessments and interest. Other general revenues such as fines and forfeitures, inspection fees, recreation fees, and miscellaneous revenues are recognized when received in cash or when measurable and available under the criteria described above.

Winnebago County reports unearned revenues on its governmental funds balance sheet. For governmental fund financial statements, unearned revenues arise when potential revenue does not meet both the "measurable" and "available" criteria for recognition in the current period. Unearned revenues also arise when resources are received before Winnebago County has a legal claim to them, as when grant monies are received prior to the meeting all eligibility requirements. In subsequent periods, when both revenue recognition criteria are met, or when Winnebago County has a legal claim to the resources, the liability for unearned revenue is removed from the balance sheet and revenue is recognized.

Proprietary fund financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as described previously in this note. Custodial funds follow the economic resources measurement focus and the accrual basis of accounting.

The proprietary funds distinguish *operating* revenues and expenses from *non-operating* items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the proprietary funds are charges to customers for sales and services. Operating expenses for proprietary funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

ALL FINANCIAL STATEMENTS

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenditures/expenses during the reporting period. Actual results could differ from those estimates.

NOTES TO THE BASIC FINANCIAL STATEMENTS December 31, 2020

NOTE I - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont.)

D. Assets, Liabilities, Deferred Outflows/Inflows of Resources, and Net Position or Fund Balance

1. DEPOSITS AND INVESTMENTS

For purposes of the statement of cash flows, Winnebago County considers all highly liquid investments with an initial maturity of three months or less when acquired to be cash equivalents.

Investment of Winnebago County funds is restricted by state statutes. Available investments are limited to:

- 1. Time deposits in any credit union, bank, savings bank or trust company maturing in three years or less.
- 2. Bonds or securities of any county, city, drainage district, technical college district, village, town, or school district of the state. Also, bonds issued by a local exposition district, a local professional baseball park district, a local professional football stadium district, a local cultural arts district, or by the University of Wisconsin Hospitals and Clinics Authority.
- 3. Bonds or securities issued or guaranteed by the federal government.
- 4. The local government investment pool.
- 5. Any security maturing in seven years or less and having the highest or second highest rating category of a nationally recognized rating agency.
- 6. Securities of an open-end management investment company or investment trust, subject to various conditions and investment options.
- 7. Repurchase agreements with public depositories, with certain conditions.

Winnebago County has adopted an investment policy. That policy contains the following guidelines for allowable investments.

Custodial Credit Risk

The County requires that investments in excess of \$500,000 in any bank as a County depository may be subject to collateralization (i.e., a surety bond or other security being required for the amount of the deposit) unless minimum standards are met. These standards include certain capitalization and deposit ratios, earnings and quality of assets criteria. At December 31, 2020 the County was in compliance with the custodial credit risk policy.

Credit Risk

The County has no formal credit risk policy.

Concentration of Credit Risk

The County has no formal concentration of credit risk policy.

Interest Rate Risk

The County has no formal interest rate risk policy.

NOTES TO THE BASIC FINANCIAL STATEMENTS December 31, 2020

NOTE I - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont.)

- D. Assets, Liabilities, Deferred Outflows/Inflows of Resources, and Net Position or Fund Balance (cont.)
 - 1. DEPOSITS AND INVESTMENTS (cont.)

Investments are stated at fair value, which is the price that would be received for selling an asset in an orderly transaction between market participants at the measurement date. Fair values are based on quoted market prices. No investments are reported at amortized cost. Adjustments necessary to record investments at fair value are recorded in the operating statement as increases or decreases in investment income. Investment income on commingled investments of county accounting funds is allocated based on average cash balance in each fund or program. The difference between the bank balance and carrying value is due to outstanding checks and/or deposits in transit.

The Wisconsin Local Government Investment Pool (LGIP) is part of the State Investment Fund (SIF), and is managed by the State of Wisconsin Investment Board. The SIF is not registered with the Securities and Exchange Commission, but operates under the statutory authority of Wisconsin Chapter 25. The SIF reports the fair value of its underlying assets annually. Participants in the LGIP have the right to withdraw their funds in total on one day's notice. At December 31, 2020, the fair value of the Winnebago County's share of the LGIP's assets was substantially equal to the amount as reported in these statements.

See Note III. A. for further information.

2. RECEIVABLES

Property taxes are levied in December on the assessed value as of the prior January 1. In addition to property taxes for Winnebago County, taxes are collected for and remitted to the state as well as the local school district and technical college district. Taxes for the County billed in the current year for the succeeding year are reflected as receivables and deferred inflows of resources on the accompanying fund balance sheet and in the governmental activities column on the statement of net position.

NOTE I - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont.)

D. ASSETS, LIABILITIES, DEFERRED OUTFLOWS/INFLOWS OF RESOURCES, AND NET POSITION OR FUND BALANCE (cont.)

2. RECEIVABLES (cont.)

Property taxes are due, in the year subsequent to levy, on the last day of January, and collected by local treasurers through that date, at which time unpaid taxes are assigned to the County and appropriate receivables and payables are recorded. Tax collections become the responsibility of the County and taxes receivable include unpaid taxes levied for all taxing entities within the County. The County makes restitution to local districts in August for payables recorded at the settlement date without regard to collected funds. A lien is placed on all properties for which a portion of the current tax levy remains unpaid as of September 1. The interest and penalties on taxes not paid within 60 days of the end of the current fiscal period is shown as deferred revenue until it is received in cash. Accounts receivable have been shown net of an allowance for uncollectible accounts. No allowance for uncollectible delinquent taxes has been provided because of the County's demonstrated ability to recover any losses through the sale of the applicable property.

During the course of operations, transactions occur between individual funds that may result in amounts owed between funds. Short-term interfund loans are reported as "due to and from other funds." Long-term interfund loans (noncurrent portion) are reported as "advances from and to other funds." Interfund receivables and payables between funds within governmental activities are eliminated in the statement of net position. Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as "internal balances".

Winnebago County has received federal and state grant funds for economic development loan programs (CDBG) to various businesses and individuals. Winnebago County records a loan receivable when the loan has been made and funds have been disbursed. The amount recorded as economic development loans receivable has been reduced by an allowance for uncollectible accounts of \$0.

It is Winnebago County's policy to record revenue when the initial loan is made from the federal and state grant funds. The net amount of the loan receivable balance is offset by a restricted fund balance for economic development.

Winnebago County has also funded an economic development loan program (IDB) through transfers from the general fund. The amount of this program is considered assigned until a loan is made then the loan amount is transferred to restricted fund balance. As the loan is repaid the restricted amount is reduced and the assigned amount is increased. At any point the County has the ability to close the amounts not loaned back to the general fund.

NOTES TO THE BASIC FINANCIAL STATEMENTS December 31, 2020

NOTE I - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont.)

D. Assets, Liabilities, Deferred Outflows/Inflows of Resources, and Net Position or Fund Balance (cont.)

3. PREPAID SUPPLIES AND PREPAID ITEMS

Governmental fund prepaid supplies, if material, are recorded at cost based on the FIFO method using the consumption method of accounting. Year-end prepaid supplies were not significant. Proprietary fund prepaid supplies are generally used for construction and for operation and maintenance work. They are not for resale. They are valued at cost based on weighted average, and charged to construction, operation and maintenance expense when used.

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both government-wide and fund financial statements.

Prepaid supplies and prepaid items of governmental fund in the fund financial statements are offset by non-spendable fund balance to indicate that they do not represent spendable available financial resources.

4. RESTRICTED ASSETS

Mandatory segregations of assets are presented as restricted assets. Such segregations are required by bond agreements and other external parties. Current liabilities that are payable from these restricted assets are so classified. The excess of restricted assets over current liabilities payable from restricted assets will be used first for retirement of related long-term debt. The remainder, if generated from earnings, is shown as restricted net position.

5. CAPITAL ASSETS

GOVERNMENT-WIDE STATEMENTS

Capital assets, which include property, plant, equipment, and infrastructure assets, are reported in the applicable governmental or business-type column in the government-wide financial statements. Capital assets are defined by the government as assets with an individual cost of more than \$5,000 and a useful life of more than one year for general capital assets and \$100,000 for road and \$25,000 for bridge infrastructure assets. All capital assets are valued at historical cost or estimated historical cost if actual amounts are unavailable. Donated capital assets are recorded at their estimated acquisition value at the date of donation.

Upon implementing GASB 34 in January 2002, governmental units were required to account for all capital assets, including infrastructure, in the government-wide statements prospectively from the date of implementation. Winnebago County has retroactively reported all network infrastructure acquired by its governmental fund types.

NOTES TO THE BASIC FINANCIAL STATEMENTS December 31, 2020

NOTE I – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont.)

- D. ASSETS, LIABILITIES, DEFERRED OUTFLOWS/INFLOWS OF RESOURCES, AND NET POSITION OR FUND BALANCE (cont.)
 - 5. CAPITAL ASSETS (cont.)

Additions to and replacements of capital assets of business-type activities are recorded at original cost, which includes material, labor, overhead, and an allowance for the cost of funds used during construction when significant. For tax-exempt debt, the amount of interest capitalized equals the interest expense incurred during construction netted against any interest revenue from temporary investment of borrowed fund proceeds. \$0 of net interest was capitalized during the current year. The cost of renewals and betterments relating to retirement units is added to plant accounts. The cost of property replaced, retired, or otherwise disposed of, is deducted from plant accounts and, generally, together with removal costs less salvage, is charged to accumulated depreciation.

Depreciation of all exhaustible capital assets is recorded as an allocated expense in the statement of activities, with accumulated depreciation reflected in the statement of net position. Depreciation is provided over the assets' estimated useful lives using the straight-line method of depreciation. The range of estimated useful lives by type of asset is as follows:

| Buildings | 10-60 Years |
|-------------------------|--------------|
| Land Improvements | 3-60 Years |
| Machinery and Equipment | 3-35 Years |
| Leachate system | 20 Years |
| Infrastructure | 40-100 Years |

FUND FINANCIAL STATEMENTS

In the fund financial statements, capital assets used in governmental fund operations are accounted for as capital outlay expenditures of the governmental fund upon acquisition. Capital assets used in proprietary fund operations are accounted for the same way as in the government-wide statements.

NOTES TO THE BASIC FINANCIAL STATEMENTS December 31, 2020

NOTE I - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont.)

D. ASSETS, LIABILITIES, DEFERRED OUTFLOWS/INFLOWS OF RESOURCES, AND NET POSITION OR FUND BALANCE (cont.)

6. COMPENSATED ABSENCES

Under terms of employment, employees are granted sick leave and vacations in varying amounts. Only benefits considered to be vested are disclosed in these statements.

All vested vacation and sick leave pay is accrued when incurred in the government-wide and proprietary fund financial statements. A liability for these amounts is reported in governmental funds only if they have matured, for example, as a result of employee resignations and retirements, or are payable with expendable available resources.

Payments for vacation and sick leave will be made at rates in effect when the benefits are used. Accumulated vacation liabilities at December 31, 2020 are determined on the basis of current salary rates and include salary-related payments. Accumulated sick leave liabilities at December 31, 2020 are determined for non-represented employees and the liabilities are calculated based on rates of pay and sick leave balances at December 31, 2005, for other employees the liabilities are calculated based on rates of pay and sick leave balances at December 31, 2013.

7. DEFERRED OUTFLOWS/INFLOWS OF RESOURCES

Deferred outflows of resources are a consumption of net position by the government that is applicable to a future reporting period. Deferred inflows of resources are an acquisition of net position by the government that is applicable to a future reporting period. The recognition of those outflows and inflows as expenses or expenditures and revenues are deferred until the future periods to which the outflows and inflows are applicable.

Governmental funds may report deferred inflows of resources for unavailable revenues. The County reports unavailable revenues for property taxes, loans receivable and grants and other receivables. These inflows are recognized as revenues in the government-wide financial statements.

8. PENSIONS

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Wisconsin Retirement System (WRS) and additions to/deductions from WRS' fiduciary net position have been determined on the same basis as they are reported by WRS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

NOTES TO THE BASIC FINANCIAL STATEMENTS
December 31, 2020

NOTE I - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont.)

- D. ASSETS, LIABILITIES, DEFERRED OUTFLOWS/INFLOWS OF RESOURCES, AND NET POSITION OR FUND BALANCE (cont.)
 - 9. OTHER POSTEMPLOYMENT BENEFITS OTHER THAN PENSIONS (OPEB)
 - a. SINGLE-EMPLOYER DEFINED POSTEMPLOYMENT BENEFIT PLAN

For purposes of measuring the net OPEB liability, deferred outflows of resources and deferred inflows of resources related to OPEB, and OPEB expense, information about the fiduciary net position of the Winnebago County's Other Postemployment Benefit Plan (the "Plan") and additions to/deductions from the Plan's fiduciary net position have been determined on the same basis as they are reported by the Plan. For this purpose, the Plan recognizes benefit payments when due and payable in accordance with the benefit terms.

b. LOCAL RETIREE LIFE INSURANCE FUND (WRS Life Liability)

The fiduciary net position of the Local Retiree Life Insurance Fund (LRLIF) has been determined using the flow of economic resources measurement focus and the accrual basis of accounting. This includes for purposes of measuring the net OPEB liability, deferred outflows of resources and deferred inflows of resources related to other post-employment benefits, OPEB expense, and information about the fiduciary net position of the LRLIF and additions to/deductions from LRLIFs fiduciary net position have been determined on the same basis as they are reported by LRLIF. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

10. LONG-TERM OBLIGATIONS / CONDUIT DEBT

All long-term obligations to be repaid from governmental and business-type resources are reported as liabilities in the government-wide statements. The long-term obligations consist primarily of notes and bonds payable, and accrued compensated absences.

Long-term obligations for governmental funds are not reported as liabilities in the fund financial statements. The face values of debt (plus any premiums) are reported as other financing sources and payments of principal and interest are reported as expenditures. The accounting in proprietary funds is the same as it is in the government-wide statements.

For the government-wide statements and proprietary fund statements, bond premiums and discounts are deferred and amortized over the life of the issue using the straight-line method. Gains and losses on prior refunding issues are amortized over the remaining life of the old debt, or the life of the new debt, whichever is shorter. The balance at year-end for both premiums/discounts and gains/losses, as applicable, is shown as an increase or decrease in the liability section of the statement of net position.

The County does not engage in conduit debt transactions.

NOTES TO THE BASIC FINANCIAL STATEMENTS December 31, 2020

NOTE I - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont.)

D. ASSETS, LIABILITIES, DEFERRED OUTFLOWS/INFLOWS OF RESOURCES, AND NET POSITION OR FUND BALANCE (cont.)

11. CLAIMS AND JUDGMENTS

Claims and judgments are recorded as liabilities if all of the conditions of Governmental Accounting Standards Board pronouncements are met. Claims and judgments that would normally be liquidated with expendable available financial resources are recorded during the year as expenditures in the governmental funds. If they are not to be liquidated with expendable available financial resources, no liability is recognized in the governmental fund statements. The related expenditure is recognized when the liability is liquidated. Claims and judgments are recorded in the government-wide statements and proprietary funds as expenses when the related liabilities are incurred. There were no significant claims or judgments at year end.

12. NET POSITION / FUND BALANCE CLASSIFICATIONS

Net position is classified and displayed in three components:

- a. Net investment in capital assets Consists of capital assets including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, mortgages, notes, or other borrowings that are attributable to the acquisition, construction, or improvement of those assets. Deferred outflows of resources and deferred inflows of resources that are attributable to the acquisition, construction, or improvement of those assets or related debt also should be included in this component of net position.
- b. Restricted net position Consists of net position with constraints placed on their use either by 1) external groups such as creditors, grantors, contributors, or laws or regulations of other governments or, 2) law through constitutional provisions or enabling legislation.
- c. Unrestricted net position All other net positions that do not meet the definition of "restricted" or "net investment in capital assets."

When both restricted and unrestricted resources are available for use, it is Winnebago County's policy to use restricted resources first, then unrestricted resources as they are needed.

FUND STATEMENTS

Fund balances of governmental funds are reported in various categories based on the nature of any limitations requiring the use of resources for specific purposes. The following classifications describe the relative strength of the spending constraints placed on the purposes for which resources can be used:

- 1. Nonspendable fund balance Amounts that cannot be spent because they are 1) not in spendable form, or 2) legally or contractually required to be maintained intact. The County reports nonspendable inventories, advance payments and delinquent personal property taxes.
- 2. Restricted fund balance Amount constraints requiring use for a specific purpose and are either: 1) externally imposed by creditors, grantors, contributors, or laws or regulations of other governments, or 2) imposed by law through constitutional provisions or enabling legislation. Fund balance restrictions are legally enforceable when a third party can enforce the resources to be used appropriately.

NOTES TO THE BASIC FINANCIAL STATEMENTS December 31, 2020

NOTE I – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont.)

D. ASSETS, LIABILITIES, DEFERRED OUTFLOWS/INFLOWS OF RESOURCES, AND NET POSITION OR FUND BALANCE (cont.)

12. NET POSITION / FUND BALANCE CLASSIFICATIONS (CONT.)

- 3. Committed fund balance Amounts used for specific purposes based on constraints imposed by formal action of the County Board. The commitment purposes must be made during the County's fiscal year ended December 31, 2020 and can only be amended by the same formal legal action creating the original commitments such as resolution or ordinance.
- 4. Assigned fund balance Funds that are constrained by the county executive as established by county ordinance with the intent for the amount to be used for specific purposes, but it is neither restricted nor committed.
- 5. Unassigned fund balance Funds that are amounts in excess (surplus) of the categories described above in the General Fund only. By their nature, other funds are established to account for revenues that are expended for specific purposes, and therefore, do not have unassigned fund balances. However, if other governmental funds have a deficit fund balances they are shown as unassigned.

The County has not adopted a fund balance spend-down policy regarding the order in which fund balance will be utilized. When a policy does not specify the spend-down policy, GASB Statement No. 54 indicates that restricted funds would be spent first, followed by committed funds, and then assigned funds. Unassigned funds would be spent last.

13. USE OF ESTIMATES

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

14. COMPARATIVE DATA

The basic financial statements include certain prior-year summarized comparative information in total but not at the level of detail required for a presentation in conformity with generally accepted accounting principles. Accordingly, such information should be read in conjunction with the government's financial statements for the year ended December 31, 2019, from which the summarized information was derived.

NOTES TO THE BASIC FINANCIAL STATEMENTS
December 31, 2020

NOTE II - STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY

A. BUDGETARY INFORMATION

Budgetary information is derived from the annual operating budget and is presented using the same basis of accounting for each fund as described in Note I. C.

A budget has been adopted for the general fund, special revenue fund, debt service fund, capital projects funds, enterprise funds (except Solid Waste Fund) and internal service funds. Wisconsin Statute 65.90 requires that an annual budget be adopted for all funds.

The County uses the following procedures when establishing budgetary data reflected in the financial statements:

- 1. Prior to September 1, the department heads submit to the County Executive a proposed operating budget for the fiscal year which commences the following January. The operating budget includes proposed expenditures and the means of financing them.
- 2. Public hearings are held concerning the proposed budget.
- 3. Prior to November 15, the budget is legally enacted through approval by the County Board.

County policy requires that budgeted revenues and appropriations for the ensuing year be established on a modified accrual basis of accounting and approved by the County Board of Supervisors. Budget is defined as the originally approved budget plus or minus approved revisions and/or carryforwards of revenues and expenditures. Individual amendments throughout the year were not material in relation to the original appropriation. A cost center can be a fund, program, department or other activity for which control of expenditures is considered desirable.

The governing body has established four broad expenditure categories including labor and fringes, travel and meetings, capital outlay and other operating expenses. Management has the authority to make budget transfers between line items as long as they remain within the same category. All transfers between categories, regardless of the amount, require approval of the governing body.

The Personnel and Finance Committee must approve transfers between categories or transfers of \$15,000 or less from the contingency fund. All other budget transfers require two-thirds approval by the County Board.

Formal budgetary integration is employed as a management control device for the general fund, special revenue funds, debt service fund and capital projects funds. Management control of the budgetary process has been established through the use of cost centers. A cost center is a department listed in the schedule of expenditures and other financing uses in the general fund and an individual fund in the special revenue, debt service, and capital projects funds.

A comparison of budget and actual is included in the accompanying financial statements for the aforementioned governmental fund types with budgets. The budgeted amounts presented include any amendments made. Unexpended appropriations, net of anticipated revenues, carried forward to 2021, aggregating \$1,157,535 at December 31, 2020, have been classified on the governmental funds balance sheet as fund balance assigned for prior year's appropriations.

NOTES TO THE BASIC FINANCIAL STATEMENTS December 31, 2020

NOTE II - STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY (cont.)

B. Excess Expenditures Over Appropriations

Winnebago County had no non-major funds with an excess of actual expenditures over appropriations for the year ended December 31, 2020.

Winnebago County controls expenditures at the category level. No individual departments experienced expenditures which exceeded appropriations. The detail of those items can be found in the Notes to Required Supplementary Information.

C. LIMITATIONS ON THE COUNTY'S TAX LEVY RATE AND ITS ABILITY TO ISSUE NEW DEBT

As part of Wisconsin's State Budget Bill (1993 Act 16), legislation was passed that limits the county's future tax levy rates. Generally, the county is limited to its 1992 tax levy rate based upon current legislation. However, this limitation does not affect debt authorized prior to August 12, 1993 or refunding bonds.

The county may also exceed the limitation by holding a referendum (according to state statutes) authorizing the county board to approve a higher rate. The county may also exceed the rate if it increases the services it provides due to a transfer of these services from another governmental unit.

The State Budget Bill also imposes restrictions on the county's ability to issue new debt. Generally, referendum approval is required to issue unlimited tax general obligation debt, with the following exceptions:

- · Refunding debt issues
- 75% approval by the county board
- A reasonable expectation that the new debt can be accommodated within the existing tax rate
- Other exceptions as listed in State Statutes Section 67.045

The county is in compliance with the limitation.

D. LIMITATIONS ON THE COUNTY'S TAX LEVY

As part of Wisconsin's Act 10, legislation was passed that limits the county's future tax levies. Generally, the county is limited to its prior tax levy dollar amount (excluding TIF districts), increased by the percentage change in the county's equalized value due to new construction, for the 2019 levy collected in 2020. Act 10 has also suspended the rate limit for 2013 and 2014. Changes in debt service from one year to the next are generally exempt from this limit. The levy limit is set to expire after the 2020 levy.

| Per Statement of Fiduciary Net Position – Fiduciary Funds | | 1,914,205 | | |
| Total | \$ | 138,589,200 | | |

Deposits with financial institutions within the State of Wisconsin are insured by the Federal Deposit Insurance Corporation (FDIC) in the amount of \$250,000 for time and savings deposits and \$250,000 for demand deposits per official custodian per insured depository institution. Deposits with financial institutions located outside the State of Wisconsin are insured by the FDIC in the amount of \$250,000 per official custodian per depository institution. Deposits with credit unions are insured by the National Credit Union Share Insurance Fund (NCUSIP) in the amount of \$250,000 per credit union member. Also, the State of Wisconsin has a State Guarantee Fund which provides a maximum of \$400,00 per public depository above the amount provided by an agency of the U.S. Government. However, due to the relatively small size of the State Guarantee Fund in relation to the Fund's total coverage, total

NOTES TO THE BASIC FINANCIAL STATEMENTS December 31, 2020

recovery of insured losses may not be available. This coverage has been considered in computing custodial credit risk.

NOTE III - DETAILED NOTES ON ALL FUNDS (cont.)

A. DEPOSITS AND INVESTMENTS (cont.)

The Securities Investor Protection Corporation (SIPC), created by the Securities Investor Protection Act of 1970, is an independent government-sponsored corporation (not an agency of the U.S. government).

Custodial Credit Risk

Deposits – Custodial credit risk for deposits is the risk that, in the event of the failure of a depository financial institution, the County will not be able to recover its deposits or will not be able to recover collateral securities that are in the possession of an outside party.

As of December 31, 2020, the County's bank balance of \$30,840,537 and \$15,606,877 of money market balance was exposed to custodial credit risk as follows:

Uninsured and uncollateralized

\$ 17,638,365

Investments – The custodial credit risk for investments is the risk that, in the event of the failure of the counterparty (e.g., broker-dealer) to a transaction, a government will not be able to recover the value of its investment or collateral securities that are in the possession of another party. Wisconsin statutes require repurchase agreements to be fully collateralized by bonds or securities issued or guaranteed by the federal government or its instrumentalities.

As of December 31, 2020, \$32,243,981 of the County's deposits with financial institutions were in excess of federal depository insurance limits and State Guarantee Fund, but were collateralized with securities held by the pledging financial institution or its trust department or agent or the Federal Reserve in the County's name or were secured with a letter of credit.

Credit Risk

Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. This is measured by the assignment of a rating by a nationally recognized statistical rating organization. Wisconsin statutes limit investments in securities to the top two ratings assigned by the nationally recognized statistical rating organizations.

As of December 31, 2020, the County's investments were rated as follows:

| | Standard | Moody's |
|---------------------------------------|----------|------------------|
| Investment Type | & Poor's | Investor Service |
| | | |
| U.S. Agencies - Explicitly guaranteed | AAA | AAA |
| Mutual Funds | AAA | AAA |
| Municipal G.O. Bonds | AAA | AAA |

NOTES TO THE BASIC FINANCIAL STATEMENTS
December 31, 2020

NOTE III - DETAILED NOTES ON ALL FUNDS (cont.)

A. DEPOSITS AND INVESTMENTS (cont.)

The County also had an investment in the following external pool that was not rated:

Local Government Investment Pool

The County also had certificates of deposit – negotiable which were not rated but were covered by FDIC insurance.

Interest Rate Risk

Interest rate risk is the risk that changes in market interest rates will adversely affect the fair value of an investment.

As of December 31, 2020, the County's investments were rated as follows:

| _ | | | | Investment Maturities (in years) | | | | | | | | | | |
|--------------------------------------|----|------------|----|----------------------------------|----|------------|-----|------------|----|-----------|--|--|--|--|
| Investment Type | | Fair Value | L | ess than 1 | | 1-5 | | 6-10 | N | More than | | | | |
| LGIP | \$ | 817,702 | \$ | 817,702 | \$ | - | \$ | - | \$ | - | | | | |
| U.S. Government securities | | 1,827,370 | | 1,057,601 | | 769,769 | | - | | - | | | | |
| U.S.Agencies - explicitly guaranteed | | 26,169,871 | | 7,629,542 | | 13,207,767 | | 412,282 | | 4,920,280 | | | | |
| Mutual Funds | | 163,178 | | 163,178 | | - | | - | | - | | | | |
| Municipal Bonds | | 51,797,738 | | 10,180,625 | | 27,673,114 | 1 | 13,943,999 | | - | | | | |
| Corporate Bonds | | 9,823,383 | | - | | 258,733 | | 9,564,650 | | - | | | | |
| Certificates of Deposit - Negotiable | | 1,982,121 | | 507,897 | | 1,474,224 | | - | | - | | | | |
| Totals | \$ | 92,581,363 | \$ | 20,356,545 | \$ | 43,383,607 | \$2 | 23,920,931 | \$ | 4,920,280 | | | | |

Concentration of Credit Risk

The County places no limit on the amount the County may invest in any one issuer. At December 31, 2020 the County had more than 5 percent of the County's investments in the following issuer: Federal Home Loan Bank - 8%.

Fair Value Measurements

The County categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant observable inputs; Level 3 inputs are significant unobservable inputs.

NOTES TO THE BASIC FINANCIAL STATEMENTS
December 31, 2020

NOTE III- DETAILED NOTES ON ALL FUNDS (cont.)

A. DEPOSITS AND INVESTMENTS (cont.)

The County has the following fair value measurements as of December 31, 2020:

NOTES TO THE BASIC FINANCIAL STATEMENTS
December 31, 2020

NOTE III - DETAILED NOTES ON ALL FUNDS (cont.)

B. RECEIVABLES (cont.)

Revenues of the enterprise funds are reported net of uncollectible amounts. Total uncollectible amounts related to revenues of the current period are as follows:

| Uncollectibles related to Airport Fund | \$ 353 |
|---|--------------|
| Uncollectibles related to Solid Waste Fund | 50,559 |
| Uncollectibles related to Park View Health Center | 6,661 |
| Total Uncollectibles for the Current Fiscal Year | \$ 57,573 |

Governmental funds report unearned revenue in connection with receivables for revenues that are not considered to be available to liquidate liabilities of the current period. Governmental funds also defer revenue recognition in connection with resources that have been received, but not yet earned. At the end of the current fiscal year, the various components of unearned and unavailable revenue reported in the governmental funds were as follows:

| | Unavailable | Unearned | Total | | | |
|--------------------------------|---------------|----------|---------------|--|--|--|
| Property Taxes | \$ 71,351,685 | \$ - | \$ 71,351,685 | | | |
| Loans Receivable | 474,040 | - | 474,040 | | | |
| Grants and other receivables | 954,142 | - | 954,142 | | | |
| Total Unavailable and Unearned | | | | | | |
| revenue for Governmental funds | \$ 72,779,867 | \$ - | \$ 72,779,867 | | | |

Delinquent property taxes purchased from other taxing authorities are reflected as nonspendable fund balance at year-end. Delinquent property taxes collected within sixty days subsequent to year-end are considered to be available for current expenditures and are therefore excluded from the nonspendable portion of fund balances. For the year ended December 31, 2020, such collections aggregated \$817,634 of which \$191,576 was levied by the County. Delinquent property taxes levied by the County are reflected as deferred inflows of resources and are excluded from the fund balance until collected. At December 31, 2020, delinquent property taxes by year levied consists of the following:

| | | County | |
|---------------------------------|--------------|--------------|--------------|
| | Total | Levied | Purchased |
| Tax Certificates | | | |
| 2019 | \$ 2,577,653 | \$ 596,211 | \$ 1,981,442 |
| 2018 | 1,324,513 | 311,658 | 1,012,855 |
| 2017 | 404,706 | 94,216 | 310,490 |
| 2016 | 593,494 | 137,453 | 456,041 |
| 2015 | 61,483 | 14,362 | 47,121 |
| 2014 and prior | 128,436 | 26,037 | 78,396 |
| Tax Deeds | 223,559 | 52,565 | 170,994 |
| Total Delinquent Property Taxes | | | |
| Receivable | \$ 5,313,844 | \$ 1,232,503 | \$ 4,057,338 |

NOTES TO THE BASIC FINANCIAL STATEMENTS
December 31, 2020

NOTE III - DETAILED NOTES ON ALL FUNDS (cont.)

B. RECEIVABLES (cont.)

For economic development loans, the Wisconsin Department of Commerce limits Winnebago County to the amount of program income from economic development loans that it may retain and loan to other businesses. Program income includes the principal and interest received from economic development loan repayments. Based upon its current population, Winnebago County may retain \$750,000.

During 2020, Winnebago County has returned to the State the amount.

C. RESTRICTED ASSETS

Restricted assets of the Solid Waste Management fund as of December 31, 2020, were \$11,396,406, including accrued interest of \$45,522. Restricted amounts include cash and cash equivalents of \$140,894 and noncurrent investments of \$11,255,512 which represent escrow amounts required by the Wisconsin Department of Natural Resources as of December 31, 2020.

Restricted assets of the Airport Fund represents unspent bond funds of \$4,663,912.

Restricted assets of the Highway Fund represents unspent bond funds of \$17,590.

D. CAPITAL ASSETS

Capital asset activity for the year ended December 31, 2020 was as follows:

| | E | Beginning | | | | | Ending | |
|--|----|-------------|----------------|----|------------|---------|-------------|--|
| | - | Balance | Increases | | creases | Balance | | |
| Governmental Activities | | | | | | | | |
| Capital Assets, Not Being Depreciated: | | | | | | | | |
| Land | \$ | 4,242,962 | \$ - | \$ | - | \$ | 4,242,962 | |
| Construction in progress | | 8,422,098 | 10,162,931 | 1 | 10,806,880 | | 7,778,149 | |
| Total Capital Assets, Not Being | | | | | | | | |
| Depreciated | | 12,665,060 | 10,162,931 | 1 | 10,806,880 | - | 12,021,111 | |
| Capital Assets, Being Depreciated: | | | | | | | | |

E. INTERFUND RECEIVABLES/PAYABLES AND TRANSFERS

The principal purpose of these interfunds is to fund negative cash balances. All remaining balances resulted from the time lag between the dates that (1) interfund goods and services are provided or reimbursable expenditures occur, (2) transactions are recorded in the accounting system, and (3) payments between funds are made.

For the statement of net position, interfund balances which are owed within the governmental activities or business-type activities are netted and eliminated. The internal balance amount of \$2,247,916 is the total amount of internal service funds allocated to the business-type activities.

NOTES TO THE BASIC FINANCIAL STATEMENTS December 31, 2020

NOTE III - DETAILED NOTES ON ALL FUNDS (cont.)

E. INTERFUND RECEIVABLES/PAYABLES AND TRANSFERS (cont.)

The following is a schedule of interfund transfers:

| Fund | Fund | | | | | |
|--|-------------|------------------|----|----------------------------|--------|---|
| Transferred To | Transferr | Transferred From | | Amount | Prin | cipal Purpose |
| Human Services | General F | und | \$ | 12,982,032 | Tax Le | evy Allocation |

All general obligation notes and bonds payable are backed by the full faith and credit of Winnebago County. Notes and bonds in the governmental funds will be retired by future property tax levies by the debt service fund. Business-type activities debt is payable by revenues from user fees of those funds or, if the revenues are not sufficient, by future tax levies.

During 2010 the County borrowed \$1,057,500 for the Winnebago County Housing Authority. This entity makes the principal and interest payments to Winnebago County. The County will then make the payments to the State Trust Fund. The current balances on these loans are \$474,041.

In accordance with Wisconsin Statutes, total general obligation indebtedness of Winnebago County may not exceed five percent of the equalized value of taxable property within the County's jurisdiction. The debt limit as of December 31, 2020, was \$744,661,325. Total general obligation debt outstanding at year end was \$38,174,048.

OTHER DEBT INFORMATION

Estimated payments of compensated absences, landfill closure and long-term care are not included in the debt service requirement schedules. The compensated absences attributable to governmental activities will be liquidated primarily by the general or special revenue fund. The landfill closure and long-term care cost will be liquidated primarily with the restricted cash and investments in the solid waste management fund.

NOTES TO THE BASIC FINANCIAL STATEMENTS December 31, 2020

NOTE III - DETAILED NOTES ON ALL FUNDS (cont.)

G. LEASE DISCLOSURES

LESSOR - OPERATING LEASES

The County is the lessor of hangar, parking, office and related building space at its airport under various operating leases for periods ranging from 2021 through 2090. Revenues and related expenses for these leases are recorded in the Airport fund. The cost, accumulated depreciation and book value of leased property are \$23,863,034, \$17,220,340 and \$6,642,694, respectively.

Non-cancelable operating leases at December 31, 2020, provide for the following future minimum lease revenues (excluding any contingent rentals):

| Ψ | 653,652 | 2051-2055 | \$ | 166,285 |

LESSOR/ LESSEE - CAPITAL LEASES

The County has no material outstanding sales-type or direct financing leases.

LESSEE - OPERATING LEASES

The County leases several group homes under annual operating agreements with the Winnebago Housing Authority. Expenditures for these leases are recorded in the human services fund. These expenditures amount to \$49,452.

NOTES TO THE BASIC FINANCIAL STATEMENTS
December 31, 2020

NOTE III - DETAILED NOTES ON ALL FUNDS (cont.)

H. CLOSURE AND POSTCLOSURE CARE COST

State and federal laws and regulations require the County to perform certain maintenance and monitoring functions at the Snell Road landfill site and the Sunnyview landfill site for the years after closure. The Snell Road landfill site was closed in 1991 and the Sunnyview landfill site was closed in 2014. Postclosure care costs are paid after the date that the landfill stops accepting waste, the County reports a portion of these postclosure care costs as an operating expense. The \$15.11 million reported as landfill postclosure care liability at December 31, 2020, represents the cumulative amount reported to date based on the use of 100 percent of the estimated capacity of the Sunnyview landfill site and 100 percent of the capacity at the Snell Road landfill site. Actual costs may be higher due to inflation, changes in technology, or changes in regulations.

The County was required by state and federal laws and regulations to make annual contributions to a trust to finance closure and postclosure care. The County is in compliance with these requirements, and, at December 31, 2020, cash and investments and accrued interest of \$11,350,884, and \$45,522, respectively are held for these purposes. These are reported as restricted assets on the statement of net position. The County expects that future inflation costs will be paid from interest earnings on these annual contributions. However, if interest earnings are inadequate or additional postclosure care requirements are determined (due to changes in technology or applicable laws or regulations, for example) these costs may need to be covered by charges to future landfill users or from tax revenue.

I. NET POSITION/FUND BALANCES

NOTES TO THE BASIC FINANCIAL STATEMENTS December 31, 2020

NOTE III - DETAILED NOTES ON ALL FUNDS (cont.)

J. COMPONENT UNIT

This report contains the Winnebago County Housing Authority (Authority), which is included as a component unit. Financial information is presented as a discrete column in the statement of net position and statement of activities.

In addition to the basic financial statements and the preceding notes to financial statements which apply, the following additional disclosures are considered necessary for a fair presentation.

1. Basis of Accounting/Measurement Focus

The housing authority follows the full accrual basis of accounting and the flow of economic resources measurement focus.

2. DEPOSITS AND INVESTMENTS

The Authority's investments are categorized as follows:

Per statement of net positionCash and investments - unrestricted
Cash and investments - restricted

Total

\$ 1,985,037

\$ 984,636

1,000,401

3. Cash and Cash Equivalents

The Authority considers all highly liquid debt instruments purchased with a maturity of three months or less to be cash equivalents.

6. CAPITAL LEASE

River Cities Redevelopment, LLC has entered into a capital lease agreement dated September 2, 2010 with the Authority to acquire, develop, rehabilitate and operate the existing buildings, common areas, improvements and underlying land.

Base rent under the capital lease was payable to the Authority in a single installment of \$1,875,000 on September 2, 2010. The balance of unpaid base rent accrues interest at 4.40%, compounded annually. The base rent and all accrued interest thereon is due August 31, 2036. The capital lease obligation is secured by a mortgage note. The lease expires August 9, 2108.

7. PRIOR PERIOD ADJUSTMENTS

During 2020, the Housing Authority's and discretely presented component unit's net position have been restated as of January 1, 2020 to reflect correction of errors identified as follow:

| | Primary Government | Component Unit | Total |
|---|-----------------------|-------------------|---------------|
| Net position, beginning of year, as previously stated | \$ 11,019,574 | \$ - | \$ 11,019,574 |

| FSS grant restricted net position reclassifed as unearned revenue | (68,846) | - | (68,846) |
| Net position, beginning of year, restated | \$ 9,646,601 | \$ 3,057,258 | \$ 12,703,859 |

NOTES TO THE BASIC FINANCIAL STATEMENTS December 31, 2020

NOTE IV - OTHER INFORMATION

A. PENSION PLAN

a. Plan Description

The WRS is a cost-sharing multiple-employer defined benefit pension plan. WRS benefits and other plan provisions are established by Chapter 40 of the Wisconsin Statutes. Benefit terms may only be modified by the legislature. The retirement system is administered by the Wisconsin Department of Employee Trust Funds (ETF). The system provides coverage to all eligible State of Wisconsin, local government and other public employees. All employees, initially employed by a participating WRS employer on or after July 1, 2011, and expected to work at least 1200 hours a year (880 hours for teachers and school district educational support employees) and expected to be employed for at least one year from employee's date of hire are eligible to participate in the WRS.

ETF issued a standalone WRS Financial Report, which can be found at http://etf.wi.gov/about-etf/reports-and-studies/financial-reports-and-statements.

For employees beginning participation on or after January 1, 1990, and no longer actively employed on or after April 24, 1998, creditable service in each of five years is required for eligibility for a retirement annuity. Participants employed prior to 1990 and on or after April 24, 1998, and prior to July 1, 2011, are immediately vested. Participants who initially became WRS eligible on or after July 1, 2011, must have five years of creditable service to be vested.

Employees who retire at or after age 65 (54 for protective occupation employees, 62 for elected officials and executive service retirement plan participants, if hired on or before 12/31/2016) are entitled a retirement benefit, based on a formula factor, their final average earnings, creditable service.

Final average earnings is the average of the participant's three highest earnings periods. Creditable service includes current service and prior service for which a participant received earnings and made contributions as required. Creditable service also includes creditable military service. The retirement benefit will be calculated as a money purchase benefit based on the employee's contribution plus matching employer's contributions, with interest, if that benefit is higher than the formula benefit.

Vested participants may retire at or after age 55 (50 for protective occupations) and receive an actuarially reduced benefit. Participants terminating covered employment prior to eligibility for an annuity may either receive employee-required contributions plus interest as a separation benefit or leave contributions on deposit and defer application until eligible to receive a retirement benefit.

The WRS also provides death and disability benefits for employees.

NOTES TO THE BASIC FINANCIAL STATEMENTS
December 31, 2020

NOTE IV – OTHER INFORMATION

A. PENSION PLAN (cont.)

b. Post-Retirement Adjustments

The Employee Trust Funds Board may periodically adjust annuity payments from the retirement system based on annual investment performance in accordance with s. 40.27, Wis. Stat. An increase (or decrease) in annuity payments may result when investment gains (losses), together with other actuarial experience factors, create a surplus (shortfall) in the reserves, as determined by the system's consulting actuary. Annuity increases are not based on cost of living or other similar factors. For Core annuities, decreases may be applied only to previously granted increases. By law, Core annuities cannot be reduced to an amount below the original, guaranteed amount (the "floor") set at retirement. The Core and Variable annuity adjustments granted during recent years are as follows:

| | Core Fund | Variable Fund |
|------|------------|---------------|
| Year | Adjustment | Adjustment |
| 2010 | -1.3% | 22.0% |
| 2011 | -1.2% | 11.0% |
| 2012 | -7.0% | -7.0% |
| 2013 | -9.6% | 9.0% |
| 2014 | 4.7% | 25.0% |
| 2015 | 2.9% | 2.0% |
| 2016 | 5.0% | -5.0% |
| 2017 | 2.0% | 4.0% |
| 2018 | 2.4% | 17.0% |
| 2019 | 0.0% | -10.0% |
| | | |

c. Contributions

Required contributions are determined by an annual actuarial valuation in accordance with Chapter 40 of the Wisconsin Statutes. The employee required contribution is one-half of the actuarially determined contribution rate for general category employees, including teachers, and Executives and Elected Officials. Required contributions for protective employees are the same rate as general employees. Employers are required to contribute the remainder of the actuarially determined contribution rate. The employer may not pay the employee required contribution unless provided for by an existing collective bargaining agreement.

During the year ending December 31, 2020, the WRS recognized \$4,686,339 in contributions from the County.

Contribution rates for the reporting period are:

| Employee Category | <u>Employee</u> | Employer |
|---------------------------------|-----------------|-----------------|
| General (including Teachers) | 6.75% | 6.75% |
| Executive & Elected Officials | 6.75% | 6.75% |
| Protective with Social Security | 6.75% | 11.65% |

NOTES TO THE BASIC FINANCIAL STATEMENTS December 31, 2020

NOTE IV - OTHER INFORMATION

A. PENSION PLAN (cont.)

d. Pension Assets, Pension Expense, and Deferred Outflows of Resources Related to Pensions

At December 31, 2020, the County reported an asset of \$12,828,245 for its proportionate share of the net pension asset. The net pension asset was measured as of December 31, 2019, and the total pension asset used to calculate the net pension asset was determined by an actuarial valuation as of December 31, 2018 rolled forward to December 31, 2019. No material changes in assumptions or benefit terms occurred between the actuarial valuation date and the measurement date. The County's proportion of the net pension asset was based on the County's share of contributions to the pension plan relative to the contributions of all participating employers. At December 31, 2019, the County's proportion was .39784208%, which was an increase of .000322437% from its proportion measured as of December 31, 2018.

For the year ended December 31, 2020, the County recognized pension expense of \$9,485,847.

At December 31, 2020, the County reported deferred outflows of resources related to pensions from the following sources:

| | Deferred Outflows of Resouces | | | erred Inflows Resouces | |
|---|-------------------------------|------------|---|-------------------------------|--|
| Differences between expected and actual experiences Net differences between projected and actual | \$ | 24,350,941 | | \$ 12,186,016 | |
| earnings on pension plan investments | | - | | 26,225,492 | |
| Changes in actuarial assumptions | | 999,661 | | - | |
| Changes in proportion and differences between employer contributions and proportionate share | | | | | |
| of contributions | | 26,903 | | 9,267 | |
| Employer contributions subsequent to the | | | | | |
| measurement date | | 4,686,339 | | - | |
| | \$ | 30,063,844 | : | \$ 38,420,775 | |

The \$4,686,339 reported as deferred outflows related to pension resulting from the County's contributions subsequent to the measurement date will be recognized as a reduction of the net pension asset in the year ended December 31, 2021. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pension will be recognized in pension expense as follows:

NOTES TO THE BASIC FINANCIAL STATEMENTS December 31, 2020

NOTE IV – OTHER INFORMATION

A. PENSION PLAN (cont.)

d. Pension Assets, Pension Expense, and Deferred Outflows of Resources Related to Pensions (cont.)

| Year ending | |
|--------------|--------------------|
| December 31, | Expense |
| 2021 | \$ (3,870,276) |
| 2022 | (2,889,514) |
| 2023 | 459,942 |
| 2024 | (6,743,422) |
| Total | \$ (13,043,270) |

e. Actuarial Assumption

The total pension liability in the December 31, 2018, actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Actuarial Valuation Date:

Measurement date of net pension liability (asset):

December 31, 2018

December 31, 2019

Actuarial Cost Method:

Normal Entry Age

Actuarial Valuation Method:

Fair Market Value

Long-Term Expected Rated of Return: 7.0%

Discount Rate: 7.0%

Salary Increases

Inflation: 2.0% - 2.7%

Seniority/Merit: 3.2% - 8.8% including inflation

Mortality: Wisconsin 2012 Mortality Table

Post-retirement Adjustments* 1.9%

Actuarial assumptions are based upon an experience study conducted in 2018 that covers a three-year period from January 1, 2015 to December 31, 2017. Based on this experience study, actuarial assumptions used to measure the Total Pension Liability changed from prior year, including the discount rate, long-term expected rate of return, post-retirement adjustment, wage inflation rate, mortality and separation rates. The Total Pension Liability for December 31, 2019 is based upon a roll-forward of the liability calculated from the December 31, 2018 actuarial valuation.

^{*} No post-retirement adjustment is guaranteed. Actual adjustments are based on recognized investment return, actuarial experience and other factors. 1.9% is the assumed annual adjustment based on the investment return assumption and the post-retirement discount rate.

NOTES TO THE BASIC FINANCIAL STATEMENTS December 31, 2020

NOTE IV - OTHER INFORMATION

A. PENSION PLAN (cont.)

e. Actuarial Assumption (cont.)

Long-term Expected Return on Plan Assets. The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

| Asset Class | Current Asset Allocation % | Long-Term Expected Nominal Rate of Return % | Long-Term Expected Real Rate of Return % |
|----------------------------|----------------------------------|--|--|
| Core Fund Asset Class | Allocation 78 | Of Neturn 78 | Nate of Neturn // |
| Global Equities | 49% | 8.00% | 5.10% |
| Fixed Income | 24.5% | 4.90% | 2.10% |
| Inflation Sensitive Assets | 15.5% | 4.00% | 1.20% |
| Real Estate | 9% | 6.30% | 3.50% |
| Private Equity/ Debt | 8% | 10.60% | 7.60% |
| Multi-Asset | 4% | 6.90% | 4.00% |
| Cash | -10% | 0.90% | NA |
| Total Core Fund | 100% | 7.50% | 4.60% |
| Variable Fund Asset Class | | | |
| U.S. Equities | 70% | 7.50% | 4.60% |
| International Equities | 30% | 8.20% | 5.30% |
| Total Variable Fund | 100% | 7.80% | 4.90% |

New England Pension Consultants Long Term US CPI (inflation) Forecast: 2.75%.

Asset allocations are managed within established ranges, target percentages may differ from actual monthly allocations.

Single Discount Rate. A single discount rate of 7.00% was used to measure the Total Pension Liability, as opposed to a discount rate of 7.20% for the prior year. This single discount rate was based on the expected rate of return on pension plan investments of 7.00% and a municipal bond rate of 3.71%. Because of the unique structure of WRS, the 7.00% expected rate of return implies that a dividend of approximately 1.9% will always be paid. For purposes of the single discount rate, it was assumed that the dividend would always be paid. The projection of cash flows used to determine this single discount rate assumed that plan member contributions will be made at the current contribution rate and that employer contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on these assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments (including expected dividends) of current plan members. Therefore, the municipal bond rate of return on pension plan investments was applied to all periods of projected

NOTES TO THE BASIC FINANCIAL STATEMENTS December 31, 2020

benefit payments to determine the total pension liability.

NOTE IV - OTHER INFORMATION

A. PENSION PLAN (cont.)

e. Actuarial Assumption (cont.)

Sensitivity of the County's proportionate share of the net pension liability (asset) to changes in the discount rate. The following presents the County's proportionate share of the net pension liability (asset) calculated using the discount rate of 7.00 percent, as well as what the County's proportionate share of the net pension liability (asset) would be if it were calculated using a discount rate that is 1-percentage-point lower (6.00 percent) or 1-percentage-point higher (8.00 percent) than the current rate:

| | 1% Decrease to | Current Discount | 1% Increase to |
|---|--------------------|------------------|-----------------|
| | Discount Rate Rate | | Discount Rate |
| | (6.0%) | (7.0%) | (8.0%) |
| County's propportion share of the net pension liability (asset) | \$ 33,035,023 | \$ (12,828,245) | \$ (47,116,312) |

Pension plan fiduciary net position. Detailed information about the pension plan's fiduciary net position is available in separately issued financial statements available at http://etf.wi.gov/publications/cafr.html.

f. Payable to the WRS

At December 31, 2020 the County reported a payable of \$946,085 for the outstanding amount of contributions to the pension plan for the year ended December 31, 2020.

B. RISK MANAGEMENT

Winnebago County is exposed to various risks of loss related to torts; theft of, damage to, or destruction of assets; errors and omissions; workers compensation; and health care of its employees. Winnebago County purchases commercial insurance to provide coverage for losses from: property, equipment, landfill pollution, airport liability and employee healthcare hospital liability. There have been no claims in excess of coverage in the past three years.

PUBLIC ENTITY RISK POOL

Winnebago County participates in a public entity risk pool called Wisconsin County Mutual Insurance Company (WCMIC) to provide coverage for losses from liability, bodily and personal injury, and errors and omissions coverage.

However, other risks, such as workers compensation, health care, and dental care of its employees are accounted for and financed by Winnebago County in an internal service fund – the self insurance internal service fund.

NOTES TO THE BASIC FINANCIAL STATEMENTS December 31, 2020

NOTE IV – OTHER INFORMATION (cont.)

B. RISK MANAGEMENT (cont.)

SELF INSURANCE

The uninsured risk of loss for worker's compensation is \$500,000 per incident with no aggregate coverage for a policy year. The County has purchased commercial insurance for claims in excess of those amounts. Settled claims have not exceeded the commercial coverage in any of the past three years.

The uninsured risk of loss for dental insurance is \$1,000 per person per coverage year with no aggregate coverage for a policy year. The County has purchased commercial insurance for claims in excess of those amounts.

All funds of Winnebago County participate in the risk management program. Amounts payable to the self insurance fund is based on budgeted estimates of the amounts necessary to pay prior and current year claims and to establish a reserve for catastrophic losses. The reserve at year end was \$9,253,709, this amount was designated for that reserve at year end, and is included in unrestricted net position of the internal service fund.

A liability for a claim is established if information indicates that it is probable that a liability has been incurred at the date of the financial statements and the amount of the loss is reasonably estimable. Liabilities include an amount for claims that have been incurred but not reported. The County does not allocate overhead costs or other nonincremental costs to the claims liability.

NOTE IV - OTHER INFORMATION (cont.)

B. RISK MANAGEMENT (cont.)

SELF INSURANCE (cont.)

WISCONSIN COUNTY MUTUAL INSURANCE COMPANY (WCMIC)

During 1987, the County, together with other counties in the State of Wisconsin, created the Wisconsin County Mutual Insurance Company (WCMIC) to provide liability insurance to its members. WCMIC also provides bodily and personal injury and errors and omissions coverage for the County. WCMIC is governed by one entity-one vote and includes counties of varying size. Only member entities participate in governing WCMIC. The actuary for WCMIC determines the charge per \$1,000 of ratable governmental expenditures acquired to pay the expected losses and loss adjustment expenses on which premiums are based. The County's self-insured retention limit is \$100,000 for each occurrence, \$250,000 aggregate. Estimated claims payable at year-end are \$353,034 and IBNR's are estimated to be immaterial. These amounts are included in the claims liability table in the previous section.

C. COMMITMENTS AND CONTINGENCIES

From time to time, Winnebago County is party to various pending claims and legal proceedings. Although the outcome of such matters cannot be forecasted with certainty, it is the opinion of management and Winnebago County's attorney that the likelihood is remote that any such claims or proceedings will have a material adverse effect on Winnebago County's financial position or results of operations.

Winnebago County has received federal and state grants for specific purposes that are subject to review and audit by the grantor agencies. Such audits could lead to requests for reimbursements to the grantor agency for expenditures disallowed under terms of the grants. Management believes such disallowances, if any, would be immaterial.

During 2020, Winnebago County borrowed \$11,500,000 for the purpose of making various capital improvements. These monies, as well as other revenue sources, are reflected in the capital project funds. Work that has been completed but not yet paid for (including contract retainages) is reflected as accounts payable and expenditures. The balance of contract amounts plus open purchase orders is \$593,897 at year end and will be paid out of the restricted and committed fund balance in the capital project funds.

NOTES TO THE BASIC FINANCIAL STATEMENTS
December 31, 2020

NOTE IV - OTHER INFORMATION (cont.)

C. COMMITMENTS AND CONTINGENCIES (CONT.)

Funding for the operating budget of Winnebago County comes from many sources, including property taxes, grants and aids from other units of government, user fees, fines and permits, and other miscellaneous revenues. The State of Wisconsin provides a variety of aid and grant programs which benefit Winnebago County. Those aid and grant programs are dependent on continued approval and funding by the Wisconsin governor and legislature, through their budget processes. The State of Wisconsin is currently experiencing budget problems, and is considering numerous alternatives including reducing aid to local governments. Any changes made by the State to funding or eligibility of local aid programs could have a significant impact on the future operating results of Winnebago County.

D. JOINT VENTURES

MEG UNIT

The Counties of Calumet, Fond du Lac, Outagamie, and Winnebago, the Town of Menasha, the Cities of Menasha, Appleton, Oshkosh, Neenah, Chilton, and Fond du Lac jointly operate the local drug enforcement unit, which is called the MEG Unit and provides drug enforcement services. The MEG Unit does not issue separate financial statements. The governing body is made up of the Chief of Police, Sheriff, or the designee of the participating agencies. Financial information of the MEG Unit as of year end is available directly from the Task Force Coordinator. The MEG Unit receives its funding from Federal and State Grants and contributions from participating agencies. The County maintains the financial records for the MEG Unit. The amounts are shown as a custodial fund. Each of the Counties provide personnel to staff the unit. The participating agencies made payments to the MEG Unit that totaled \$73,125. The County believes that the unit will continue to provide services in the future at similar rates.

SINGLE STREAM RECYCLING FACILITY

The Counties of Brown, Outagamie, and Winnebago have entered into a contract for the joint operation of a single stream recycling facility (SSRF). The SSRF does not issue separate financial statements. The governing body is made up of the members of the three counties.

NOTES TO THE BASIC FINANCIAL STATEMENTS December 31, 2020

NOTE IV - OTHER INFORMATION (cont.)

E. OTHER POSTEMPLOYMENT BENEFITS

1. SINGLE-EMPLOYER DEFINED POSTEMPLOYMENT BENEFIT PLAN

The county's group health insurance plan provides coverage to active employees and retirees (or other qualified terminated employees) at blended premium rates. This results in another postemployment benefit (OPEB) for the retirees, commonly referred to as an implicit rate subsidy.

a. Plan Description

The Plan is a single-employer defined benefit postemployment health plan that covers retired employees of the County. Eligible retired employees have access to group medical coverage through the County's group plan. County paid medical benefits are paid for as indicated below. All employees of the County are eligible for the Plan if they meet the following age and service requirements below.

b. Benefits Provided

The County makes contributions to a fiduciary fund based upon sick leave balances upon retirement. The balance is to be used for eligible expenses such as continued coverage in the County's group medical plan. The retiree also can stay on the County's group medical plan until age 65.

At December 31, 2020, the following employees were covered by the benefit terms

| Inactive employees or beneficiaries currently receiving benefit | 45 |
|---|-----|
| Active employees | 867 |
| | 912 |

c. Contributions

Contribution requirements are established by the Human Resources Department and approved by the County Board and may be amended by County Board action. The County makes no monthly health insurance contribution on behalf of the retirees. For fiscal year 2020, total retirees contributions were \$505,999. Administrative costs of the plan are financed through plan premiums.

d. Total OPEB Liability

The County's total OPEB liability was measured as of December 31, 2019, and the total OPEB liability used to calculate the total OPEB liability was determined by an actuarial valuation as of that date.

NOTES TO THE BASIC FINANCIAL STATEMENTS December 31, 2020

NOTE IV - OTHER INFORMATION (cont.)

E. OTHER POSTEMPLOYMENT BENEFITS (cont.)

- 1. SINGLE-EMPLOYER DEFINED POSTEMPLOYMENT BENEFIT PLAN (cont.)
- d. Total OPEB Liability (cont.)

Actuarial Assumptions. The total OPEB liability in the December 31, 2019 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement, unless otherwise specified:

Inflation: 2.5 percent

Salary Increases: Ranges from 3.1 percent to 7.8 percent

Investment Rate of Return: 2.75 percent

Healthcare cost trend rates:

6.50 percent decreasing by 0.10 percent per year

down to 5.0 percent, and level thereafter

Mortality rates are the same as those used in the December 31, 2019 Wisconsin Retirement System's annual report.

The actuarial assumptions used in the December 31, 2019 valuation were based on the results of an actuarial experience study for the period January 1, 2017 - December 31 2017.

The long-term expected rate of return on OPEB plan investments was valued at 2.75%. The 20 year tax-exempt AA Municipal bond rate as of the measurement date was used for all years of benefit payments.

Discount rate. The discount rate used to measure the total OPEB liability was 2.75 percent. The projection of cash flows used to determine the discount rate assumed that County contributions will be made at rates equal to the actuarially determined contribution rates. Based on those assumptions, the OPEB plan's fiduciary net position was projected to be available to make all projected OPEB payments for current active and inactive employees. Therefore, the long-term expected rate of return on OPEB plan investments was applied to all periods of projected benefit payments to determine the total OPEB liability.

e. Changes in the Total OPEB Liability

| Balance at January 1, | \$ 5,923,674 |
|---|-----------------|
| Service Costs | 425,765 |
| Interest on net OPEB obligation | 235,310 |
| Changes in assumptions and | |

2. LOCAL RETIREE LIFE INSURANCE FUND (WRS Life Liability)

a. Plan Description

The LRLIF is a cost-sharing, multiple-employer defined benefit OPEB plan. LRLIF benefits and other plan provisions are established by Chapter 40 of the Wisconsin Statutes. The Wisconsin Department of Employee Trust Funds (ETF) and the Group Insurance Board have statutory authority for program administration and oversight. The plan provides post-employment life insurance benefits for all eligible employees.

ETF issues a standalone Comprehensive Annual Financial Report (CAFR), which can be found at http://etf.wi.gov/publications/cafr.htm

Additionally, ETF issued a standalone Retiree Life Insurance Financial Report, which can be found at https://etfonline.wi.gov/ETFGASBPublicWeb/gasb75Local.do

b. Benefits provided

The LRLIF plan provides fully paid up life insurance benefits for post-age 64 retired employees and pre-65 retirees who pay for their coverage.

NOTES TO THE BASIC FINANCIAL STATEMENTS December 31, 2020

NOTE IV - OTHER INFORMATION (cont.)

E. OTHER POSTEMPLOYMENT BENEFITS (cont.)

2. LOCAL RETIREE LIFE INSURANCE FUND (cont.)

c. Contributions

The Group Insurance Board approves contribution rates annually, based on recommendations from the insurance carrier. Recommended rates are based on an annual valuation, taking into consideration an estimate of the present value of future benefits and the present value of future contributions. A portion of employer contributions made during a member's working lifetime funds a post-retirement benefit.

Employers are required to pay the following contributions based on member contributions for active members to provide them with Basic Coverage after age 65. There are no employer contributions required for pre-age 65 annuitant coverage. If a member retires prior to age 65, they must continue paying the member premiums until age 65 in order to be eligible for the benefit after age 65.

Contribution rates as of December 31, 2020 are:

| Coverage Type | Employer Contribution |
|------------------------------|------------------------------|
| 25% Post Retirement Coverage | 20% of employee contribution |

Member contributions are based upon nine age bands through age 69 and an additional eight age bands for those age 70 and over. Participating members must pay monthly contribution rates per \$1,000 of coverage until the age of 65 (age 70 if active). The employee contribution rates in effect for the year ended December 31, 2019 are as listed below:

| Life Insurance Member Contribution Rates For the year ended December 31, 2019 | | | | |
|---|--------|--|--|--|
| Attained Age | Basic | | | |
| Under 30 | \$0.05 | | | |
| 30-34 | 0.06 | | | |
| 35-39 | 0.07 | | | |
| 40-44 | 0.08 | | | |
| 45-49 | 0.12 | | | |
| 50-54 | 0.22 | | | |
| 55-59 | 0.39 | | | |
| 60-64 | 0.49 | | | |

- LOCAL RETIREE LIFE INSURANCE FUND (cont.)
 During the year ending December 31, 2020, the LRLIF recognized \$18,702 in contributions from the employer
- d. OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEBs

At December 31, 2020, Winnebago County reported a liability (asset) of \$4,405,341 for its proportionate share of the net OPEB liability (asset). The net OPEB liability (asset) was measured as of December 31, 2019, and the total OPEB liability used to calculate the net OPEB liability (asset) was determined by an actuarial valuation as of December 31, 2018 rolled forward to December 31, 2019. No material changes in assumptions or benefit terms occurred between the actuarial valuation date and the measurement date. Winnebago County's proportion of the net OPEB liability (asset) was based on Winnebago County's share of contributions to the OPEB plan relative to the contributions of all participating employers. At December 31, 2019, Winnebago County's proportion was 1.0034556%, which was an increase of .007564% from its proportion measured as of December 31, 2018.

For the year ended December 31, 2020, Winnebago County recognized OPEB expense of \$476,012.

At December 31, 2020, Winnebago County reported deferred outflows of resources and deferred inflows of resources related to OPEBs from the following sources:

| | 0 | Deferred utflows of esources | lı | Deferred oflows of esources |
|---|----|------------------------------------|----|-----------------------------------|
| Differences between expected and actual experiences | \$ | - | \$ | 197,354 |
| Net differences between projected and investment earnings on plan investments | | 83,100 | | - |
| Changes in actuarial assumptions | | 1,625,150 | | 484,554 |
| Changes in proportion and differences between employer contributions and proportionate share of contributions | | 53,648 | | 1,760 |
| Total | \$ | 1,761,898 | \$ | 683,668 |

NOTES TO THE BASIC FINANCIAL STATEMENTS December 31, 2020

NOTE IV – OTHER INFORMATION (cont.)

E. OTHER POSTEMPLOYMENT BENEFITS (cont.)

2. LOCAL RETIREE LIFE INSURANCE FUND (cont.)

Other amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows:

| Year ended December 31: | | Expense |
|----------------------------|----------------|-----------|
| 2021 | \$ | 184,986 |
| 2022 | | 184,986 |
| 2023 | | 176,027 |
| 2024 | | 166,797 |
| 2025 | | 139,116 |
| Thereafter | | 226,318 |
| | \$ | 1,078,230 |

e. Actuarial assumptions

The total OPEB liability in the December 31, 2018, actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

| Actuarial Valuation Date: | January 1, 2019 |
|---|-------------------------------|
| Measurement date of net OPEB liability (asset): | December 31, 2019 |
| Actuarial Cost Method: | Entry Age Normal |
| 20 Year Tax-Exempt Municipal Bond Yield: | 2.74% |
| Long-Term Expected Rated of Return: | 4.25% |
| Discount Rate: | 2.87% |
| Salary Increases | |
| Inflation: | 3.00% |
| Seniority/Merit: | 0.1% - 5.6% |
| Mortality: | Wisconsin 2018 Mortality Tabl |

Actuarial assumptions are based upon an experience study conducted in 2018 that covered a three-year period from January 1, 2015 to December 31, 2017. The Total OPEB Liability for December 31, 2019 is based upon a roll-forward of the liability calculated from the January 1, 2019 actuarial valuation.

NOTES TO THE BASIC FINANCIAL STATEMENTS December 31, 2020

NOTE IV - OTHER INFORMATION (cont.)

E. OTHER POSTEMPLOYMENT BENEFITS (cont.)

2. LOCAL RETIREE LIFE INSURANCE FUND (cont.)

f. Long-term expected Return on Plan Assets

The long-term expected rate of return is determined by adding expected inflation to expected long-term real returns and reflecting expected volatility and correlation. Investments for the LRLIF are held with Securian, the insurance carrier. Interest is calculated and credited to the LRLIF based on the rate of return for a segment of the insurance carriers' general fund, specifically 10-year A- Bonds (as a proxy, and not tied to any specific investments). The overall aggregate interest rate is calculated using a tiered approach based on the year the funds were originally invested and the rate of return for that year. Investment interest is credited based on the aggregate rate of return and assets are not adjusted to fair market value. Furthermore, the insurance carrier guarantees the principal amounts of the reserves, including all interest previously credited thereto.

| | | | Long-Term Expected |
|-------------------------|----------------------|------------|-----------------------|
| | | Target | Geometric Real |
| Asset Class | Index | Allocation | Rate of Return |
| US Credit Bonds | Barclays Credit | 45% | 2.12% |
| US Long Credit Bonds | Barclays Long Credit | 5% | 2.90% |
| US Mortgages | Barclays MBS | 50% | 1.53% |
| Inflation | | | 2.20% |
| Long-Term Expected Rate | e of Return | | 4.25% |

The long-term expected rate of return decreased slightly from 5.0% in the prior tear to 4.25% in the current year. This change was primarily based on the target asset allocation and capital market expectations. The expected inflation rate also decreased slightly from 2.3% in the prior year to 2.2% in the current year. The long-term expected rate of return is determined by adding expected inflation to expected long-term real returns and reflecting expected volatility and correlation.

g. Single Discount rate

A single discount rate of 2.87% was used to measure the total OPEB liability for the current year, as opposed to a discount rate of 4.22% for the prior year. The significant change in the discount rate was primarily caused by the decrease in the municipal bond rate from 4.10% as of December 31, 2018 to 2.74% as of December 31, 2019. The Plan's fiduciary net position was projected to be insufficient to make all projected future benefit payments of current active and inactive members. Therefore, the discount rate for calculating the Total OPEB Liability is equal to the single equivalent rate that results in the same actuarial present value as the long-term expected rate of return applied to benefit payments, to the extent that the plan's fiduciary net position is projected to be sufficient to make projected benefit payments, and the municipal bond rate applied to benefit payment to the extent that the plan's fiduciary net position is projected to be insufficient. The plan's fiduciary net position was projected to be available to make projected future benefit payments of current plan members through December 31, 2036.

NOTES TO THE BASIC FINANCIAL STATEMENTS December 31, 2020

NOTE IV - OTHER INFORMATION (cont.)

E. OTHER POSTEMPLOYMENT BENEFITS (cont.)

- 2. LOCAL RETIREE LIFE INSURANCE FUND (cont.)
 - g. Single Discount rate (cont.)

The projection of cash flows used to determine the single discount rate assumed that employer contributions will be made according to the current employer contribution schedule and that contribution are made by plan member retiring prior to age 65.

h. Sensitivity of Winnebago County's proportionate share of the net OPEB liability (asset) to changes in the discount rate

The following presents Winnebago County's proportionate share of the net OPEB liability (asset) calculated using the discount rate of 2.87 percent, as well as what Winnebago County's proportionate share of the net OPEB liability (asset) would be if it were calculated using a discount rate that is 1-percentage-point lower (1.87 percent) or 1-percentage-point higher (3.87 percent) than the current rate:

| | Decrease to count Rate (1.87%) | Current count Rate (2.87%) | 1% Increase To Discount Rate (3.87%) | |
|--|------------------------------------|----------------------------------|--------------------------------------|-----------|
| Winnebago County's proportionate share of the net OPEB liability (asset) | \$ 6,083,038 | \$ 4,405,341 | \$ | 3,128,940 |

OPEB plan fiduciary net position. Detailed information about the OPEB plan's fiduciary net position is available in separately issued financial statements available at http://etf.wi.gov/publications/cafr.htm

F. ECONOMIC DEPENDENCY

SOLID WASTE MANAGEMENT FUND

The Solid Waste Management Fund has one significant customer who was responsible for 26% of operating revenues in 2020.

HIGHWAY FUND

The Highway Fund has one significant customer who was responsible for 21% of operating revenues in 2020.

NOTES TO THE BASIC FINANCIAL STATEMENTS December 31, 2020

NOTE IV - OTHER INFORMATION (cont.)

G. SUBSEQUENT EVENTS

The Coronavirus Disease 2019 (COVID-19) is having significant effects on global markets, supply chains, businesses, employees of organizations, and communities. Specific to Winnebago County, COVID-19 may impacted various parts of its 2021 operations and financial results. Management believes Winnebago County has taking appropriate actions to mitigate to negative impact. However, the full impact of COVID-19 is unknown and cannot be reasonably estimated as of July 26, 2021.

H. RECLASSIFICATIONS

Certain amount in the prior years financial statements have been reclassified to conform with the presentation in the current year financial statements with no change in previously reported net position, changes in net position, fund balance or changes in fund balance.

REQUIRED SUPPLEMENTARY

INFORMATION

GENERAL FUND

The general fund is the primary operating fund of the County and receives most of the revenue derived by the County from local sources. It is used to account for all financial resources except those accounted for in another fund.

The County is required to present the last 10 fiscal years of data; however, accounting standards allow the presentation of as many years as are available until 10 fiscal years are presented.

NOTES TO REQUIRED SUPPLEMENTARY INFORMATION For the year ended December 31, 2020

Budgetary Information

Budgetary information is derived from the annual operating budget and is presented using generally accepted accounting principles and the modified accrual basis of accounting. The County Board has established four broad expenditure categories including labor and fringes, travel and meetings, capital outlay and other operating expenses. The level of budgetary control is the four categories at the department level. There is no difference between GAAP and the budgetary basis of accounting.

Excess expenditures over appropriations are as follows:

None

NOTES TO REQUIRED SUPPLEMENTARY INFORMATION For the year ended December 31, 2020

NOTE A - WISCONSIN RETIREMENT SYSTEM

There were no changes of benefit terms or assumptions for any participating employer in WRS.

NOTE B - POSTEMPLOYMENT BENEFITS OTHER THAN PENSIONS-SINGLE-EMPLOYER DEFINED BENEFIT PLAN

Changes of benefit terms. There were no changes of benefit terms.

Changes of assumptions. The discount rate was reduced from 3.75% to 3.50%.

NOTE C - POSTEMPLOYMENT BENEFITS OTHER THAN PENSIONS-LOCAL RETIREE LIFE INSURANCE FUND

Changes of benefit terms. There were no changes of benefit terms for any participating employer in LRLIF.

Changes of assumptions. There were no changes in the assumptions.

SUPPLEMENTARY INFORMATION

GENERAL FUND

The general fund is the primary operating fund of the County and receives most of the revenue derived by the County from local sources. It is used to account for all financial resources except those accounted for in another fund.

ENTERPRISE FUNDS

Enterprise funds are used to account for operations that are financed and operated in a manner similar to a private service on County debt issued to construct facilities relating to the operations is accounted for through the business enterprise - where the intent of the County Board of Supervisors is that the costs of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges. Debt enterprise funds.

- Airport Fund Provides for the maintenance and development of physical facilities and equipment of the County airport and for the safety and security of tenants and the traveling public. Wittman Field is the home of the Experimental Aircraft Association.
- Solid Waste Management Fund Provides for the operation and maintenance of a County-wide sanitary landfill and materials recycling facility.
- Parkview Health Center Fund Accounts for a full range of treatment and care of older adults with late life disabilities as well as care and treatment for individuals suffering from chronic mental illness development disabilities in a specialized nursing home facility.
- Highway Fund Provides full maintenance of all County trunk highway and designated federal, state and municipal highways and roads including construction of various non-highway facilities.

NON CASH INVESTING, CAPITAL, AND FINANCING ACTIVITIES

In 2020, the County had no non cash transactions. In 2019, the County had no non cash transactions.

INTERNAL SERVICE FUNDS

Internal service funds are used to account for the financing of goods or services provided by one department or agency to other departments or agencies of the County, or to other governments, on a cost-reimbursement basis.

- General Services Fund Provides central printing, mailroom and microfilming services to all County departments.
- Self-Insurance Fund Provides the County with the necessary funding source to pay for those risks which are funded internally including worker's compensation, limited property and liability, health insurance, and dental insurance.

Independent auditors' report on internal control over financial reporting and on compliance and other matters based on an audit of financial statements performed in accordance with *Government Auditing Standards*

To the County Board Winnebago County Oshkosh, Wisconsin

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of the Winnebago County, Wisconsin, (the "County") as of and for the year ended December 31, 2020, and the related notes to the financial statements, which collectively comprise the County's basic financial statements, and have issued our report thereon dated July 30, 2021. Our report includes a reference to other auditors who audited the financial statements of the Housing Authority of the County of Winnebago as described in our report on the County's financial statements. This report does not include the results of the other auditor's testing of internal controls over financial reporting or compliance and other matters for the Housing Authority of the County of Winnebago that are reported on separately be the other auditor.

INTERNAL CONTROL OVER FINANCIAL REPORTING

In planning and performing our audit of the financial statements, we considered the County's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the County's internal control. Accordingly, we do not express an opinion on the effectiveness of the County's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the County's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

COMPLIANCE AND OTHER MATTERS

As part of obtaining reasonable assurance about whether the County's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

PURPOSE OF THIS REPORT

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of County's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the County's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Source: Wisconsin Department of Revenue, Bureau of Property Tax.

- Due to varying assessment ratios to full market value used in municipalities, all underlying tax districts such as counties are required to use equalized value for levying property taxes. Equalized value, defined by State Statute, is the legal market value determined by the Wisconsin Department of Revenue Bureau of Property Tax. <u>a</u>
- Equalized Values are reduced by Tax Increment District value increments for apportioning the County levy. **@**
- (c) Per \$1,000 of equalized value.
